

Chestnut Avenue Roadway Improvements

Village of Glenview

Roadway widening will improve Chestnut Avenue safety

The Village of Glenview is improving roadway safety at Chestnut Avenue between Waukegan Road and Lehigh Avenue to make the conditions safer for pedestrians, cyclists and motorists.

Chestnut Avenue will be widened from two lanes to three lanes, including green medians and lighting, and will incorporate improved geometry at the Chestnut and Tanglewood intersection. There will also be storm sewer improvements, including additional in-line storage.

The addition of a continuous, third lane will improve safety and traffic flow. In addition, a proposed multi-use path will accommodate pedestrians and cyclists along the north side of Chestnut Avenue.

The project, which is supported by the Surface Transportation and Illinois Transportation Enhancement Program grant, is anticipated to start in summer 2022.

Existing conditions of Chestnut Avenue

Public Open House Meeting

6:30 - 8 p.m. Dec. 13, 2021

Glenview Village Hall

2500 East Lake Avenue, Glenview, IL 60026

(in the Burnham Board Room)

Village staff will share design plans and will be available to discuss the project aspects and next steps.

Project Highlights:

- Chestnut Avenue roadway widening - increase from two to three lanes to improve traffic flow, including green median
- Increased storm storage capacity
- Street Lighting
- New multi-use path to improve pedestrian safety
- Anticipated to start in summer 2022

Project Updates will be posted at <https://www.glenview.il.us/Pages/ChestnutAve.aspx>
