COVID-19 GUIDELINES FOR CONSTRUCTION SITES

STAY AT HOME if you are sick or have symptoms such as fever, cough, or shortness of breath.

SOCIAL DISTANCING - Maintain six (6) feet away from others on a jobsite at all times. COVID-19 is primarily spread through respiratory droplets produced when an infected person coughs or sneezes. Avoid contact with residents and congregating during breaks. Allow for flexible work hours and stagger shifts to ensure social distancing.

ROUTINELY CLEAN AND DISINFECT construction equipment, tools, door handles and other frequently touched surfaces or objects.

WEAR PERSONAL PROTECTION EQUIPMENT (PPE) such as gloves, goggles, and a mask or other face covering like a bandana when on a jobsite. Do not share personal protective equipment, tools, phones, or other personal equipment.

FREQUENTLY WASH HANDS - Use hand sanitizer and washing stations when on jobsites. Wash hands for at least 20 seconds and use hand sanitizer that is 60% alcohol.

Building site questions? Contact Joe Footlik, Inspectional Services Manager, at joe@glennview.il.us.

Infrastructure site questions? Contact Adriana Webb, Engineering Manager, at awebb@glennview.il.us.
