**I. Findings.**

- A. COVID-19 (*a.k.a.*, Novel Coronavirus) is a severe respiratory illness caused by the SARS-CoV-2 virus, a new strain of coronavirus that is spread from person to person, posing a threat to the health and safety of the residents of the Village of Glenview.
- B. No drug or vaccine is currently available to treat or prevent COVID-19.
- C. On January 27, 2020, United States Department of Health and Human Services Secretary Alex Azar declared a national public health emergency due to COVID-19.
- D. On March 9, 2020, Illinois Governor J.B. Pritzker issued a Gubernatorial Disaster Proclamation declaring that all counties in the State of Illinois, including Cook County, are disaster areas due to the Novel Coronavirus.
- E. On March 11, 2020, the World Health Organization (“**WHO**”) declared COVID-19 to be a global pandemic.
- F. On March 13, 2020, President of the United States Donald Trump issued a declaration of a national emergency due to the growing COVID-19 crisis in the United States, and on March 26, 2020, President Trump issued a major disaster declaration for the State of Illinois due to the COVID-19 crisis.
- G. On March 20, 2020, Governor Pritzker issued an Executive Order requiring all non-essential persons to stay at home with limited exceptions and non-essential businesses to cease operations with limited exceptions, which order was effective March 21, 2020 through April 7, 2020, and was recently extended to April 30, 2020 (“**Stay at Home Order**”).
- H. On April 8, 2020, Village President Jim Patterson issued a Declaration of a Local State of Emergency for the Village of Glenview to address the impact of COVID-19 on the Village of Glenview and its residents and business and property owners (“**Emergency Declaration**”).
- I. The Emergency Declaration provides the Village President with, among other powers, the authority “to take any and all actions and issue any order as is imminently necessary for the protection of life, property, health, safety, and public welfare.”

J. The WHO has indicated that COVID-19 is spread primarily by respiratory droplets produced when an infected person coughs or sneezes and droplets can also be generated by talking, laughing, or exhaling.

K. The Center for Disease Control (“CDC”) has stated that people experiencing no symptoms can spread COVID-19 more widely than previously thought, and that people are the most contagious before they start showing symptoms.

L. On April 3, 2020, the CDC announced that it recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies).

M. The U.S. Surgeon General acknowledged that there is a significant amount of asymptomatic spread and recommends that individuals use face coverings to reduce the spread of COVID-19.

N. The Director of the National Institute of Allergy and Infectious Diseases has further recommended that individuals wear facial coverings to prevent individuals from infecting others.

O. The number of individuals in Illinois infected with COVID-19 continues to increase regularly, and often daily, and each day COVID-19 continues its spread constitutes a separate occurrence of this natural disaster.

P. Preparedness, response, and recovery from the COVID-19 virus is of paramount importance and the virus has the risk of substantially endangering the health, safety, and property of the citizens of the Village of Glenview.
