Lakehore@mc2energyservices.com

Residents of **Kenilworth, Wilmette, Glenview, and Northfield** collectively called the Lakeshore Power Alliance (LPA), approved a referendum authorizing community leaders to buy electricity in bulk from a supplier other than ComEd. After an extensive bidding process, the Lakeshore Power Alliance has selected **MC Squared Energy Services, LLC (mc²)**, to provide electricity supply services to member communities through May 2015.

For more information on the program visit:

www.LakeshorePowerAlliance.com

What is electricity aggregation?

On August 10, 2009, Governor Quinn signed into law Public Act 096-0176, which allows municipalities to arrange for the provision of electricity to residential and small commercial retail customers by alternative electric suppliers (i.e. suppliers other than ComEd). Under this law, the municipality may seek bids for the provision of aggregate electricity supply services to their residents and small businesses, in hopes that the selected rate will be lower than the standard rate offered by ComEd.

Who is eligible to participate?

Eligible residential requirements: All residents located in the LPA member communities are eligible to participate.

Eligible business requirements: All small businesses located in the LPA member communities, with an annual usage 15,000 kWh or less are eligible to participate.

What will change on my electricity bill?

The only real change to your ComEd bill will be a change in the price for electricity supply services. You will continue to receive a single bill from ComEd on a monthly basis. mc² charges for electricity supply and transmission services will be included in the "Electricity Supply Service" portion of your ComEd bill. ComEd will continue to bill you for distribution services and taxes. Payments should still be sent to ComEd at the address provided by the utility.

What will be my home electricity supply price?

Pursuant to the Power Supply Agreement terms between the LPA and mc², your price is reset each June billing cycle to reflect the current market conditions. The new price, beginning on the June 2013 billing cycle, will be 4.977 cents per kWh. The new price will continue to provide savings against ComEd rates. You will be notified of the new annual price at least 30 days prior to such price taking effect.

Lakeshore Power Alliance Glenview

What is the toll-free number for questions?

If you have any questions, you can call mc² toll-free at 1-855-564-8129, Monday through Friday, from 8 a.m. to 5 p.m., or email your questions to Lakeshore@mc2energyservices.com.

How do I enroll?

All eligible residents and small businesses can “Opt-In” to the program by visiting www.lakeshorepoweralliance.com and click on “Glenview Electricity Aggregation Program”. You may also enroll by calling 1-855-564-8129.

Please Note: If you have a newly issued ComEd account number, it may take a week before you are eligible to enroll in the program via phone. It may take up to one bill cycle before you are able to enroll a new account number via web.

Will I receive confirmation of my switch to mc²?

ComEd will mail you a confirmation letter indicating they have received notice of your switch to mc² as your electricity supplier.

Will my electricity service be disrupted when I switch?

No, there will be no disruption in service. You will continue to receive the same electric service through the same transmission and distribution system currently operated by ComEd. The switch to mc² is seamless.

What if my power goes out – who do I call?

ComEd is responsible for ensuring that electricity flows through its distribution network to all homes and businesses. Being a member of an electricity aggregation program does not change how ComEd responds to outages. ComEd continues to be responsible for the wires, poles, and all emergencies, including outage restoration. All service issues, including power outages, should still be reported to ComEd at 1-800-334-7661.

Is there an early termination fee?

No. However, you will be obligated to pay for services rendered under the contract until service is terminated.

What is the Green Power Program?

Electricity service provided to you by mc² will include renewable energy resources as required and certified by Illinois regulatory authorities. In addition to this requirement, the mc² supply will have an enhanced renewable energy mix in the form of renewable energy credits to create a 100% renewable energy resources program for you. The Green Power price includes the cost of the additional Renewable Energy Certificates. Existing customers can Opt-In to the Green Power Program by enrolling on-line at www.LakeshorePowerAlliance.com.

Who is MC Squared Energy Services, LLC?

mc² has been a licensed Alternative Retail Electricity Supplier (ARES) in the State of Illinois since March 2009, marketing to residential and commercial customers in Illinois. mc² is a wholly owned subsidiary of DPL Energy Resources, Inc. (DPLER). DPLER is, in turn, a wholly owned subsidiary of DPL Inc., a regional energy company. For more information on the company, including a leadership-team profile, please visit our website at www.mc2energyservices.com.
