

Dear Applicant:

Thank you for inquiring about holding a special event in the Village of Glenview. Many events held within Glenview have an impact on our Village as a whole and therefore require the completion of a Special Event Application. **Applications must be submitted at least 30 days before your event (45 days for events with 5,000 or more participants and/or for events on the Glen Town Center parking decks.)**

Here is a brief description of **what types of events require special event approval:**

- Any **outdoor event conducted on Village owned, leased or maintained property** (for example, streets and sidewalks).
- Any indoor or outdoor event – public or private – that has a **significant impact on the community**. “Significant impact” may stem from the provision of entertainment, erecting temporary structures such as tents, the provision of food and beverages (including alcohol), the selling of souvenirs or other merchandise, additional traffic, street closures etc.

**Events that don’t need a special event approval include:**

- Smaller, indoor food service events – for example, a, Boy Scout pancake breakfast, Historical Society Ice Cream Socials, etc –as well as block parties that don’t extend off the block and don’t require Village services (such as traffic control).

Even so, the Village does require that organizers of these events obtain a Temporary Food Service Permit if they are serving food – and block parties organizers do need to complete a simple one-page block party application. If you determine that your event does *not* require a formal approval from the Village, you can access a shorter version of the Temporary Food Service Application and the Block Party Application at our website, [www.glenview.il.us](http://www.glenview.il.us). You may also call (847) 904-4370.

All Special Events require the payment of fees. In most cases the sponsoring organization will submit a refundable deposit and it will be charged for 100 percent of any costs the Village incurs in supporting the event such as with a police traffic detail.

Village staff can review and approve any event application for events that include fewer than 5,000 participants. Events larger than 5,000 participants and/or request the use of the Glen Town Center parking decks, regardless of size, require approval by the Village Board. A denial by Village staff may be appealed to the Board of Trustees.

The Village will not accept incomplete applications. If you require further explanation or assistance please contact the Village’s Special Events Coordinator at 847-904-4369.

We look forward to working with you!

## **Temporary Food Permit Application/Temporary Food Operator Menu Requirements** **Form (Pages 7-11)**

The organizers of a special event that will offer food or beverages must complete a **Temporary Food Permit Application** and a **Temporary Food Operator Menu Form**. Each food vendor is responsible for submitting a completed application and must be approved by the Village's Inspectional Services Division.

**Any vendor that is not approved a minimum of ten business days prior to the event will not be allowed to participate in the event. For assistance with the form, please call Inspectional Services at (847) 904-4340.**

Extraordinary foodborne hazards exist in temporary food service facilities, especially those exposed to the natural elements. To eliminate or minimize incidents of foodborne illness, the Village requires organizers of special events to follow the regulations set forth below.

### ***Definitions***

***Potentially Hazardous Food:*** This term refers to any food that is likely to support bacterial growth when mishandled. This includes meat, poultry, fish, and dairy products. These have certain temperature requirements (typically 41° F or below or 135° F or above). All potentially hazardous foods to be served at a special event must be approved by the Village Health Division.

***Sanitizing Solution:*** This term refers to a chemical agent used to eliminate or limit bacteria. The most frequently used sanitizing solution is chlorine (i.e., bleach), but iodine or quaternary ammonium solutions may also be used. Sanitizing solutions (also known as sanitizers) must be used to clean utensils and prepare wiping cloths.

***Thermometers:*** This term refers to metal stem thermometers. These are required for temporary food handling events. Their temperature range must begin below 40° F and go up to at least 165° F. Thermometers are to be inserted into food in order to test it. Temperatures of both hot and cold foods must be tested frequently. Thermometers must be sanitized before and after they are inserted into any food. This should be done by wiping them off with disposable alcohol wipes or cloths prepared with an approved sanitizer.

***Cross-Contamination:*** This term refers to the spreading of bacteria that occurs when blood and juices from uncooked meats make contact with other food, food utensils, or food preparation surfaces. This must be avoided by keeping raw foods separate from prepared foods and foods that do not require cooking. Raw foods should be prepared on work surfaces that are separate from those used to prepare other foods. Any food worker who handles raw food should wash their hands frequently. If raw food is going to be kept in the same refrigeration unit as prepared food and food that do not require cooking, it must be kept below the other food so that its juices cannot drip onto and contaminate it.

### ***Food temperature***

At special events, potentially hazardous food needs to be kept within a safe temperature range at all times other than during preparation, which should be done in an efficient manner. Hot food must be rapidly heated to 165° F after preparation and should be maintained above 135°F thereafter. (Crock pots may be used to hold foods that have already been heated, but they must not be used to slowly cook or reheat foods.) Uncooked/pre-cooked pork and poultry must be heated or cooked to 165°F before it may be served. Ground beef products and hot dogs must be heated or cooked to at least 155°F. All potentially hazardous foods must have their internal temperatures checked frequently with metal-stem, numerically-scaled thermometers. Cold food must be maintained at or below 41°F. A mechanical refrigerator should be used to keep food cool unless another type of refrigerator or cooling device is approved by the Village Health Division. Potentially hazardous frozen foods may only be thawed in a refrigerator set at or below 41°F. Food packed in ice will only be allowed if 41°F can be continuously maintained on the product.

### ***Food supplies***

All food supplies for special events must be obtained from sources approved by the Village Health Division. No home canned or home prepared food may be served. All food must be clean, wholesome, unadulterated, and properly labeled. All ground beef must be purchased in patty form.

Ice that will be consumed or that will come into contact with food or food containers must also be obtained from a source approved by the Village Health Division.

### ***Food storage and protection***

All food supplies for a special event, including bagged ice, must be stored off the ground on pallets, shelves, tables, or other elevated surfaces. Food must be covered or wrapped so that it is adequately protected from all forms of contamination. Condiments should be contained in individual packets, squeeze bottles, or covered bulk containers.

No food may be stored in direct contact with water or undrained ice. Canned and bottled beverages may be stored in ice only if the ice is drained frequently and kept clean. Ice used to keep beverages cool may not be served for consumption.

### ***Food handling***

At special events, food should be handled in small quantities and should be cooked by order whenever possible. Food must be prepared with sanitized utensils on sanitized surfaces with as little human contact as possible. All fruits and vegetables must be thoroughly washed before use.

Utensils must be used to dispense food and ice. They must be kept clean and dry or in running potable water when not being kept in food or ice containers. When in food or ice containers, their handles may not touch food or ice.

During transportation, food and utensils must be kept in covered containers or in wraps or packages that will prevent contamination. Potentially hazardous foods must be kept either below 41° F or above 135° F.

### ***Utensils for attendees***

Food service workers may only offer single service tableware (e.g., cups, plates, flatware, etc.) to special event attendees. If unused tableware is stored in bulk containers, it must be covered. Food service workers must provide any non-individually wrapped utensils (e.g., knives, forks, spoons, etc.) to attendees directly.

### ***Food Service Workers***

Food service workers must be hygienic. They must wear clean aprons and hair restraints and they must wash their hands frequently. They may not smoke in food preparation or food serving areas.

### ***Supply washing facilities***

Food service workers must provide adequate facilities for washing, rinsing, and sanitizing food service supplies (e.g., pots, pans, utensils, cutting boards, etc.). Supply washing facilities must have at least three buckets in which utensils may be fully immersed. One bucket must contain soapy water for washing, one must contain clean water for rinsing, and one must contain sanitizing solution (1 ounce bleach per 2 gallons water).

Food service supplies and surfaces that touch food must be washed, rinsed, and sanitized after each use. Supplies and surfaces used to prepare potentially hazardous foods must be washed, rinsed, and sanitized at least once every two hours. Wiping cloths and sponges must be kept clean and in sanitizing solution when not being used.

### ***Water facilities***

Food service stations must have an adequate supply of potable hot and cold water for drinking, washing hands, preparing foods, and cleaning food service supplies and surfaces. If running water is not available, water storage containers may be used. Each storage container must be constructed of an approved material and have a tight fitting cover and easy to clean dispenser.

### ***Hand washing facilities***

Food service workers must provide convenient and adequate hand washing facilities at each temporary food service facility. Hand washing facilities should have both hot and cold running water. Where this is not possible, provide a temporary hand washing station similar to the one demonstrated on the following page. Paper towels must be provided at all hand washing facilities. Cloth towels are prohibited.

### ***Temporary food service facilities***

Temporary food service facilities must be sheltered by a canopy, enclosure, or other approved overhang.

# TEMPORARY FOOD PERMIT APPLICATION

Temporary food service means any food service which operates for a temporary period of time, not to exceed 14 days, in connection with a fair, carnival, circus, public exhibition or similar transitory gathering. Any vendor that is not approved a minimum of **ten business** days prior to the event will not be allowed to participate in the event. For assistance with the form, please call Inspectional Services at (847) 904-4340.

  - ✓ If a sign or banner is denied, an appeal may be made to the Village Manager's Office.

### ***Tents***

If a special event requires a tent, the sponsoring organization must submit a **Banners/Signs/Tents Form** and a **Certificate of Flammability** from the tent vendor. The tent must conform to the National Fire Protection Association's Life Safety Code, 2000 edition. ### **Indemnification and Hold Harmless Agreement (Page 12):**

The Village of Glenview is not responsible for any accidents or damages to persons or property resulting from the issuance of a Special Event Approval. Event organizers must complete and submit the enclosed **Indemnification and Hold Harmless Agreement**.

### **Fees (Refundable Deposit) (Page 13):**

Complete this page to prepare your submission of fees for your event. There are several types of fees associated with the Village's special event process. These include:

- A daily **refundable damage deposit**. This is designed to cover the costs of clean up or damage to Village property. If there are no costs incurred by an event, then its entire deposit will be refunded to its organizers. If a portion of an event's deposit is required to cover costs, the remaining portion will be refunded to its organizers. An event's organizers will receive written notice about any costs that will be assessed from their security deposit. If an event's security deposit is not enough to cover all of its costs, its organizers will have to pay the Village for the remaining costs within 30 days of receiving notice about them. The initial damage deposit **must be submitted with your application**.
- Fees covering **100 percent of the costs incurred by the Village in supporting your event**. Such costs might include overtime for police, fire or public works personnel. A final bill for these services will be submitted within 15 business days after the event.
- Event organizers must make arrangements for the private pick up and removal of all refuse generated by their event or be charged additional fees by our Public Works Department.

### ***Payment***

**The Village will accept payment by check or credit card (Mastercard or Visa).** All checks must be payable to "Village of Glenview;" note organization name and the name of the event on your check. All payments will be processed immediately; once your event is over, the Village will refund the damage deposit, if appropriate.

### ***Fee Waivers***

Any request for a fee waiver must be reviewed by the Village Board of Trustees.

### **Certificate of Insurance/Letter of Endorsement (Referenced on Page 12):**

The Village of Glenview has established insurance requirements for those facility users, vendors, and contractors entering into agreements with the Village for the purpose of special events and activities. An event organizer must comply with the insurance requirements to be able to obtain a special event permit. Event permits will not be issued until all insurance requirements are satisfactorily met.

With reasonable notice to event organizers, the Village of Glenview reserves the right to require insurance of event organizers and/or vendors for activities other than those specifically mentioned, or to increase the minimum acceptable limits of liability. "Specifically, if the special event is determined by the Village, **in its sole discretion**, to be of demonstrated high or low risk, the Village Risk Manager may require a greater amount of insurance coverage than required by this section, or may require a particular type of insurance coverage different from that specified in this section. The Village may also, under certain circumstances and in its sole discretion, authorize a lesser amount of insurance coverage.

Approval of the insurance by the Village does not in any way relieve or decrease the insurance liability of an event organizer or vendor. The Village does not represent that the specified limits of liability, coverage or policy forms are sufficient or adequate to protect the interest or liabilities of the event organizer or vendor.

Event organizers must provide the Village with:
