January 2016

2016 Village Budget

Taking steps for long-term financial health

The Village of Glenview's spending plan for 2016 maintains high service levels while also addressing escalating public safety pension obligations.

The \$137 million Village Budget relies on conservative revenue forecasts, given uncertainty about whether the State of Illinois will reduce the municipal share of the state income tax in 2016 and beyond.

In order to manage public dollars responsibly, the Village has continually and proactively taken steps to keep finances healthy for the long term. That has been accomplished through cost containment measures and by working with other governments to share costs and leverage resources; entering into public-private partnerships to control personnel costs; and aggressively seeking grant funding.

To address rising public safety pension liabilities, the 2016 Village Budget includes a small property tax increase so that resources allocated for public safety; street, sewer and infrastructure improve-

ments; and the other programs and services relied on by residents and merchants can be maintained.

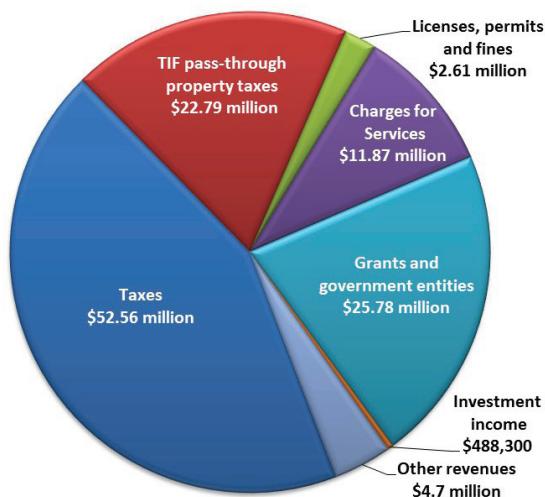

Pension costs are projected to rise by \$737,000 in 2016, on top of the \$599,000 increase in 2015. To help cover a portion of that, the Village intends to collect \$300,000 more in property taxes in 2016 than the previous year. This is the first time in seven years that the property tax levy has been increased by more than just the equivalent of the value of new construction coming onto the tax rolls. It is estimated that the total 3.82-percent increase in the tax levy should increase the Village portion of the average property owner's bill by about \$15.50 in 2016.

Additionally, earlier this year the Village convened a pension "summit" to ensure actuarial assumptions to be used in future budgeting forecasts were reasonable to avoid spikes in Village contributions.

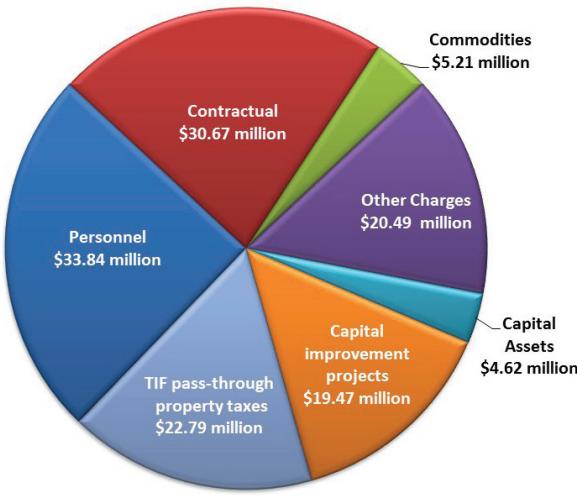

For the past few years, Glenview has experienced

VILLAGE HALL HAS MOVED

Village Hall and Police services are consolidated at 2500 East Lake Avenue. See page 3.

Make it a green goodbye

Now that the holidays are over, there is an environmentally responsible way to dispose of your Christmas tree. Trees can be dropped off until January 31 at these designated collection points:

- Glenview Public Works, 2498 East Lake Avenue
- Johns Park, 2101 Central Road
- Flick Park, 3600 Glenview Road
- Cunliff Park, 540 Echo Lane
- Cole Park, 1031 Kenilworth Avenue
- Willow Park, 2600 Greenwood Avenue

The trees will be recycled as mulch to nourish plants throughout Glenview's parks.

Residents in single-family homes, duplexes and multifamily properties, such as town homes, that have opted into the Village's refuse and recycling program can put trees, wreaths and garlands out with the regular garbage during the month of January. Groot will collect them at no additional charge. All ornaments, lights and tinsel should be removed from trees. Do NOT cover the tree with a plastic disposal bag.

Multifamily dwellings that are not part of the Village's waste contract should refer to their management companies for the appropriate method of disposal.

And remember, holiday lights can also be recycled. Drop them off in the marked receptacle outside the Public Works Department through February 26.

Resolve to recycle on 1st Fridays

The new Glenview Municipal Center can be a one-stop destination for many recyclables through the First Friday Recycling program. Safely dispose of unwanted medications and sharps, mercury-containing thermometers and thermostats, and worn American flags in the Village Hall lobby, 2500 East Lake Avenue, on the first Friday of the month. Drop-off hours are 8 a.m. to 4 p.m. on these 2016 dates: January 8* (second Friday), February 5, March 4, April 1, May 6, June 3, July 1, August 5, September 2, October 7, November 4 and December 2.

Bins are also available at Village Hall to accept these items between 8 a.m. and 5 p.m. weekdays (when Village Hall is open):

- Compact Fluorescent Light (CFL) bulbs
- Alkaline and rechargeable batteries
- Shoes (all types)
- Ink jet and laser toner cartridges
- Eyeglasses and hearing aids
- Aluminum cans
- Cell Phones

Village of Glenview

Here are the January notifications of major speed radar "hot spots" and stop sign/traffic light enforcement. At these locations, chosen in part based on resident requests for selective enforcement, Glenview police officers this month will monitor the areas for recurring traffic violations on an as-available basis. The goal is to promote safe driving in Glenview. Selective enforcement request forms can be found on our website at glenview.il.us in the "How do I?" drop-down box.

Radar "hot spots"

Lehigh Avenue between Glenview Road and Spruce Street
• 2400 block of Fir Street • Knollwood Lane/Castle Drive • Windsor Road/Polo Lane • Woodlawn Avenue from Waukegan Road to Sunset Ridge Road • Pfingsten Road from Glenview Road to Rugen Road • Larch Avenue from Magnolia to Maple streets • 2400 block Central Road • 3700 block Winnetka Road • Aberdeen Drive/Camden Drive • McArthur Drive, Colfax Street, Harrison Street and Dewes Street between Shermer Road and Harlem Avenue

Stop sign/traffic light/parking enforcement

Glenview Road/Washington Street • 2200 block Henley Street • Laramie Avenue/Wilmette Avenue • Dewes Street/Spruce Street • Colfax Street/Neva Avenue • McArthur Drive/Elm Street

This month in history

65 years ago – January 19, 1951

For the purposes of municipal elections, the Village of Glenview was divided into six election precincts, or districts, with a polling place in each.

50 years ago – January 3, 1966

The anti-gambling ordinance was revised to include pinball, bagatelle and pigeonhole games to concur with Cook County's outlawing of such games.

45 years ago – January 18, 1971

The Village purchased the parcel at 1881 Glenview Road for \$93,334 from Grace Dewes, which is now part of the Patten House property.

10 years ago – January 10, 2006

The Village Board of Trustees granted a conditional use to allow the Hangar One Foundation to operate a museum at 2040 Lehigh Avenue.

What is a sustainable budget?

- Ongoing revenues support ongoing expenditures
- One-time revenues match one-time expenditures

2016 budget *from page 1*

substantial growth and construction activity – with retail centers built on the northwest and southeast corners of the community and more than 1,000 residential units added to the Village's housing stock. Additionally, the Village completed five high-priority stormwater projects – benefitting more than 1,500 homes – accelerated with more than \$22 million in one-time outside funding.

With that activity slowing, the 2016 Village Budget is more reflective of Glenview's "new normal." A sustainable amount of anticipated annual operating revenue – \$5 million from taxes, licenses, permits, fees, investments and other charges – will be earmarked for ongoing roadway projects and other capital improvements, along with other revenue sources, to total \$14.4 million in 2016. These include:

- Replacing the Chestnut Avenue bridge over the West Fork of the North Branch of the Chicago River, between Lehigh Avenue and Waukegan Road, at an estimate of almost \$2 million. This project is in anticipation of the future widening of Chestnut Avenue between Waukegan Road and Lehigh Avenue;
- Reconstructing the "streetscape" – sidewalks, parkway trees and landscaping, lighting and street furniture – in The Glen Town Center, at an estimated \$3.12 million;
- Reconstructing 2.4 miles of roadways, at a total cost of \$6.16 million, including portions of Longvalley and North Branch roads and Hutchings Avenue;
- Resurfacing or substantially patching 5.6 miles of roadways, at a total cost of almost \$2 million, including Patriot Boulevard, Chestnut Avenue and West Lake Avenue in The Glen and Harrison Street from Warren Road to Sheryl Lane; and
- Water and sanitary sewer improvements, at a total cost of \$4.31 million, including lining a water main under Happy Hollow Road from Greenwood Road to Maple Leaf Drive.

The Village Board of Trustees reviewed and refined the 2016 budget at four public workshops. Public hearings were held on the Property Tax Levy and on the budget. Both were adopted December 8.

From the Village President

It's brighter. It's centrally located. It's customer friendly.

Those were some of the initial reactions from visitors to Village Hall's new location at 2500 East Lake Avenue, in the building it now shares with the Glenview Police Department, following the late December move.

Like anyone acclimating to a new home, Village staff is still getting used to their new desks and offices. But it's abundantly clear that the layout of the newly-constituted building is far more convenient for the public than the 35-year-old facility on Waukegan Road ever was.

Access to primary Village Hall services – such as water billing, business licenses and building permits – are available in the main lobby. Seniors and those borrowing items from the Medical Loan Closet are also served on the main floor, and no longer have to take an elevator to get there.

The updated Village Board meeting room – named after Hugh Burnham, Glenview's first Village President – has better lighting and movable seating to facilitate more and varied uses. A Skyfold partition allows the larger room to be separated into two stand-alone, smaller meeting rooms, with the smaller of the two named the Rugen Community Room.

In fact, all the meeting rooms throughout the new Village Hall honor Glenview's pioneers – Landwehr, Shermer, Dewes, Wagner, Hutchings, Kennicott, Nelson, Harrison and Appleyard. Even though the facility has a new addition and repurposed areas that are but a decade old, the reason for having a Village Hall -- providing local services to residents and businesses – dates back to Glenview's incorporation in 1899.

With the Police Department, Village Hall and Public Works Department now all making up the Glenview Municipal Center, nearly all of Glenview's municipal needs can be found in one central location. That eliminates the time-consuming travel to and from the former Village Hall's Waukegan Road site, as well as avoiding almost \$2 million in costly repairs to the old building.

Plans are now to market the 2-acre Waukegan Road site, which not only will help fund the consolidation project, but also puts the property back on the tax rolls and facilitates downtown redevelopment.

We're proud of the Glenview Municipal Center, and want its owners – our residents and businesses – to see how it turned out. To that end, we've scheduled an Open House from 10 a.m. to noon Saturday, January 30. Come by and let us know what you think.

Glenview water, sewer rates changing

An increase in water rates was enacted for 2016 for Glenview water customers to cover the increased cost of buying Lake Michigan water from Wilmette and fund maintenance and capital improvements.

Effective January 1, 2016, Glenview residents will pay \$6.06 per 1,000 gallons used, up from \$5.65 per 1,000 gallons in 2015. The quarterly fixed water charge is unchanged, which for most residences is \$7.86 per quarter. Fixed sewer rate charges are unchanged from 2015, but the consumption charge is increasing from \$1.29 per 1,000 gallons used to \$1.32, or 2 percent.

For residents using 16,000 gallons of water per quarter, that translates to an annual increase of \$28.61 on their water and sewer bill.

Glenview water bill estimates for 2016

Rate changes effective January 1 will impact the Glenview utility bill that customers receive quarterly. This chart lists estimated increases based on water and sanitary sewer consumption.

Gallons used per quarter	2015 quarterly charge	2016 quarterly charge	2016 quarterly increase	2016 annual increase
10,000	\$69.40	\$73.80	\$4.40	\$17.60
20,000	\$138.80	\$147.60	\$8.80	\$35.20
30,000	\$208.20	\$221.40	\$13.20	\$52.80
40,000	\$277.60	\$295.20	\$17.60	\$70.40

Of the 7.25-percent increase in the water consumption rate reflected in the 2016 bills, 40 percent is due to the 2016 increase in the cost of purchased water. The new rates reflect a 9.1-percent rate increase for the purchase of Lake Michigan water from Wilmette and \$5.7 million worth of scheduled water delivery system improvements. Water purchase alone accounts for 22 percent of the 2016 Water Fund expenses.

Generally, the cost to maintain the water system remains constant regardless of how much water Glenview customers use. Rates are reviewed annually to ensure they cover the costs to provide water and sanitary sewer service and that appropriate investment is being made in capital infrastructure.

Senior Housing Assistance Program applications available

The 2016 Village Senior Housing Assistance Program is designed to help Glenview residents with their property taxes or rent. Applications are now available online at www.glenview.il.us/Pages/SeniorServices.aspx or at:

- Village Hall, 2500 East Lake Avenue
- Glenview Public Library, 1930 Glenview Road
- North Shore Senior Center, 161 Northfield Road, Northfield

● Glenview Senior Center, 2400 Chestnut Avenue

Completed applications, including all needed documentation, will be accepted from February 1 to 5 – one week only.

Recipients must be at least 62 years old and have lived within the corporate limits of the Village for at least two years.

For a one-person household, total yearly

income must be below \$17,655. For a two-person household, total yearly income must be below \$23,895.

The Village of Glenview has approved up to \$1,922 per year toward rent or property taxes for qualifying Glenview senior citizens.

For more information, call Senior Services Coordinator Kim Hand at (847) 904-4366.

Discount on home project fees

For an 18th year, the Village is offering a 25-percent discount on permit fees for single-family home improvement projects, such as room additions, interior remodeling, detached garages, sheds, decks, driveways and swimming pools. The permit fee discount is available through March 31, 2016.

By submitting plans during the winter, when such activity is usually slower, permits can be issued faster and residents can avoid the delays that may occur during the busier spring and summer months. For more information, call the Community Development Department at (847) 904-4330.

Glenview Municipal Center in service

With Village Hall and the Police Department now consolidated at 2500 East Lake Avenue, the Glenview Municipal Center also includes the Public Works Department within the campus across Shermer Road. The new Village Hall location (center) includes an updated Village Board meeting room (left) and access to primary services in the lobby (right).

Help your house cope in cold weather

Water expands as it freezes, placing great pressure on anything that contains it, such as metal or plastic pipes. Expanding water can cause pipes in basements, crawl spaces, attics, garages and kitchen cabinets to rupture. Pipes against exterior walls with little or no insulation are also vulnerable to freezing.

When a pipe is frozen only a trickle of water comes out when the faucet is turned on. Do not use a blowtorch, kerosene or propane heater or any flame device to thaw a frozen pipe.

Residents can take measures to protect water lines from freezing and prevent water pipes from rupturing during extreme cold conditions:

- Keep home temperatures no lower than 55 degrees when away for an extended period of time.
- Open cabinets and closets that contain water lines to allow warm air to circulate around plumbing.
- Consider installing pipe insulation.
- Check pipe insulation periodically to make sure it is dry.
- Seal cracks in doors, windows and foundations. Small openings that consistently bring in cold air can quickly freeze pipes.
- Allow faucets to drip a little during extremely cold weather to avoid freezing.

- Learn how to shut off water valves in case a pipe bursts.

An ice dam is a ridge of ice that forms at the edge of a roof and prevents melting snow from draining off the roof. They typically occur after a cycle of days where snow melts and refreezes. The water that backs up behind the dam can leak into a home and cause damage to ceilings, walls, insulation and other areas. Experts recommend reducing the risk of damage by making sure the roof is well sealed, insulated and vented in the attic and eaves.

To avoid the risk of starting a fire, never use a natural gas oven to heat your home, even for a short time. If you must use an electric heater, be sure not to overload the circuit. Do not use a heater in a bathroom or other areas where it may come in contact with water. Turn portable heaters off when you leave or go to sleep, and only use a properly rated extension cord.

With furnaces and space heaters, a carbon monoxide detector is recommended to prevent extreme or even mild exposure to the toxic gas.

Get free rain barrels

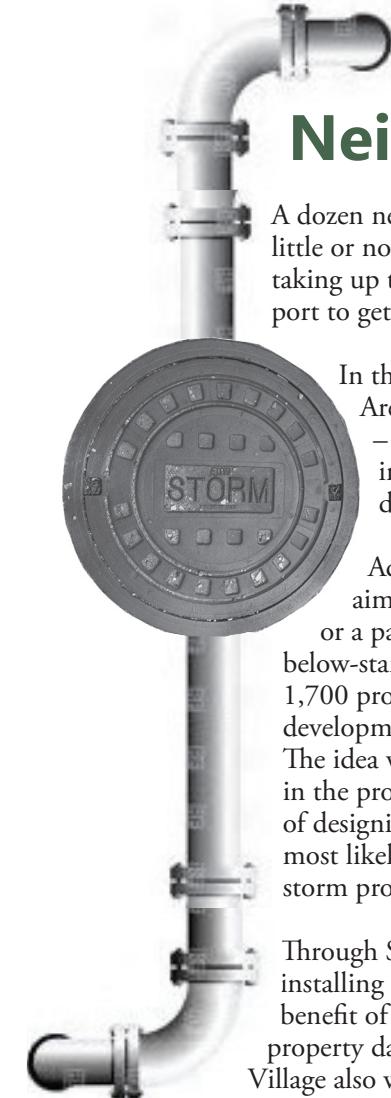

Glenview is participating in the Metropolitan Water Reclamation District of Greater Chicago's free rain barrel program. Residents are eligible to receive up to four rain barrels per property, delivered to the property along with connection hardware. Installation is the resident's responsibility.

Rain barrels capture rain water from downspouts and store it for later use, such as watering plants or car washing. Use of a rain barrel reduces the amount of runoff that originates from downspouts and provides water without a charge through the Village's water meter.

To request a rain barrel, contact the Resolution Center at (847) 724-1700.

Neighborhood drainage program retired

A dozen neighborhoods originally built with little or no storm sewers now have them after taking up the Village's offer of funding support to get them installed.

In the 13 years since the Stormwater Area Management Plan – or SWAMP – was enacted, 664 residential parcels in flood-prone areas benefitted from drainage improvements.

Adopted in 2002, the program was aimed at neighborhoods with no sewers or a patchwork of swales, culverts and below-standard pipes – at the time about 1,700 properties located in 17 different developments, or 13 percent of Glenview. The idea was to motivate them to participate in the program by sharing more of the costs of designing and building the infrastructure most likely to provide a 10-year level of storm protection.

Through SWAMP, the Village recognized that installing a drainage system had the public benefit of reducing potential flood-related property damage and nuisance ponding. The Village also wanted to extend the service life of roadways, which deteriorate more quickly when the sub-base becomes saturated without an adequate drainage system.

SWAMP called for the Village to pay to install trunk sewers – which convey storm water from one or more drainage areas – and collector sewers – which collect water for discharge to an adequate outlet. It split the cost with the participating

Activity	Parcels	Percentage of eligible
Projects constructed	632	35.9%
No petitions submitted	578	32.9%
Projects declined by neighborhood vote	355	20.2%
Petitions received; no vote taken	162	9.2%
Underway/pending	32	1.8%

neighborhood for installing new local storm sewers, including a storm sewer inlet or stub for each property.

SWAMP was retired at the end of 2015, with the Village having spent almost \$4 million to help 12 residential areas correct drainage inadequacies. Given a last request for new petitions, one small neighborhood's is pending.

Because of significant storms that caused widespread flooding, especially in 2008, the Village has for the past several years committed funds to major stormwater projects to help keep properties from flooding, guided by the Flood Risk Reduction Program adopted in 2010. Those projects have included installing oversized sewer mains to provide additional underground detention, to help prevent stormwater from overwhelming sewers or flowing into low-lying areas during heavy rainfalls.

Areas identified as having poor drainage are still considered for improvements as part of the Village's ongoing Capital Improvement Program or with other Public Works maintenance activities.

Glenview recognized for cost-sharing innovations

The Village of Glenview was the recipient recently of three awards recognizing its continuing efforts to forge new business models that better deliver services without sacrificing quality or financial standing:

• Glenview Village Manager Todd Hileman was the recipient of the first Local Government Transformer Award, presented November 2, 2015 by Transform Illinois. The award recognized the Municipal Partnering Initiative, a consortium of more than 30 local governments in north Cook and Lake Counties that jointly bid infrastructure

and capital works projects. By purchasing shared services and commodities, the governments obtain economies of scale, thereby saving taxpayer dollars.

• Glenview was named "Village of the Year" by the Home Builders Association of Greater Chicago, which lauded the culture of cooperation between Village staff, Village review panels and customers seeking planning advice and permits. It was only the second time the association has honored a municipality with the award, which takes into consideration a cooperative atmosphere for development, growth and community

planning, the balance between housing and commercial development and the collective goal to have successful, completed projects.

• The renovation of the Glenview Park Golf Club – a partnership between the Glenview Park District and the Village – was acknowledged for its exceptional design by the American Society of Golf Course Architects. The collaborative efforts led to creating a stormwater management system intricately woven into non-play areas of the golf course, and increased temporary water detention there to about 6.9 million gallons.

Village Board in brief

The Village Board of Trustees met November 3 and 17 and December 8. Here is a summary:

- ◆ Appointed Mark Demsky to chair the Appearance Commission, succeeding Tim McJilton.
- ◆ Authorized a Class B Liquor License for HK Banjum Chicago, 1615 Milwaukee Avenue, which allows for the sale of alcoholic beverages for consumption on the premises where food is served.
- ◆ Authorized a lease agreement with Verizon Wireless of Bedminster, N.J. to relocate and install telecommunications equipment on the newly-constructed monopole at Fire Station 6, 1215 Waukegan Road.
- ◆ Waived the competitive bidding process and authorized a contract for snow and ice removal services during the 2015-16 winter season with Wayne Endre Contracting of Wilmette for \$74,207, which brings its plowing responsibilities to six residential sections.
- ◆ Authorized an amendment to the agreement for professional auditing services with RSM US, LLP (formerly McGladrey, LLP) of Schaumburg to conduct an audit of financial services, Single Audit(s), Annual Comptroller Report and the TIF Compliance Report for fiscal year 2015 (conducted primarily in 2016) for up to \$63,240, with an option to renew for fiscal year 2016.
- ◆ Established proposed Special Service Area 87 for a Storm Water Area Management Program (SWAMP) project to install storm sewer improvements to nine homes along Glen Oak Drive, Maple Lane and Sunset Ridge Road in Glen Oak Acres subdivision.
- ◆ Authorized execution of a Class A liquor license for In Paris, 3315 Milwaukee Avenue, which allows for the sale of

alcoholic beverages for consumption on the premises where food is served.

- ◆ Revised the Glenview Municipal Code to amend fees charged by the Village, which:

- Makes a required application fee for massage establishments non-refundable;
 - Corrects an error to set the commuter parking fee for motorcycles at \$135;
 - Sets a \$200 fee for work on cellular towers or utilities in the Village;
 - Increases the ambulance transport rates for residents to \$971.60 and non-residents to \$1,094 and per-mile transport fees to \$12.30 per mile;
 - Adds an animal impound redemption fee of \$10;
 - Increases fees for water service restoration to \$40, after-hours water service restoration to \$250 and water shut-off to \$40 to cover full Village labor and equipment costs; and
 - Establishes a \$73.75 fee for water customers who do not want to install a transmitter as part of the water meter change-out program and various fees that would be assessed if a customer-requested meter test results in an accurate reading by a third-party tester.
- ◆ Established a no parking zone on a portion of the north side of Primrose Lane and the south side of Indigo Lane opposite Vi at The Glen.
 - ◆ Approved a final site plan review ordinance to allow a new parking lot at Astellas US LLC, 2551 Waterview Drive.
 - ◆ Approved a final site plan review

ordinance to expand and relocate the on-site material storage for the Pappas Construction facility at 2100 Johns Court.

- ◆ Concurred that a final subdivision for a planned unit development of 137 new homes at 3580 Techny Road in unincorporated Northfield Township is in compliance with the Village's Municipal Code. The project has been approved by the Cook County Zoning Board of Appeals and Cook County Board of Commissioners.

- ◆ Authorized the Village to enter into an intergovernmental agreement with Commuter Rail Division of the Regional Transportation Authority (Metra) to fund building repairs at the Depot Street and Glen of North Glenview train stations.

- ◆ Authorized a one-year contract extension with Hoving Clean Sweep LLC of West Chicago for \$117,705 for street sweeping services in 2016.

- ◆ Approved a Memorandum of Understanding between the Village of Glenview and the Glenview Public Library for financial, human resources and public works services for 2015 and 2016 for a two-year total of \$272,000.

- ◆ Approved a final subdivision plat to facilitate construction of a new Glenview Park District building at 2320 Glenview Road.

- ◆ Authorized a one-year contract extension with Trees "R" Us for tree removal, stump removal and tree trimming requests in 2016 for \$374,500.

For more, go online to: glenview.il.us and click on Government/Board of Trustees/Meeting Reports.

2016 Village board and commission meeting schedule

These are the typical meeting schedules for Village boards and commissions at Village Hall, 2500 East Lake Avenue. Check the meeting status as they are subject to change:

- Appearance Commission – 2nd and 4th Wednesday each month at 7 p.m.

- Historic Preservation Commission – four times a year
- Natural Resources Commission – 3rd Monday every two months at 7 p.m.
- Plan Commission – 2nd and 4th Tuesday each month at 7 p.m.
- Village Board of Trustees – 1st and

- 3rd Tuesday each month at 7:30 p.m.
- Zoning Board of Appeals – 1st and 3rd Monday each month at 7 p.m.
- As needed: Environmental Review Committee; Board of Fire and Police Commissioners; Fire Pension Board; Foreign Fire Insurance Board; and Police Pension Fund Board
