*about work in your area*

Dear Valued Customer,

Nicor Gas, along with its contractor NPL, will be completing a public improvement project on your street in Glenview. As part of this work, NPL will be replacing the natural gas main along your street and the natural gas service line, which connects the main to your property.

After the new service line has been installed, Nicor Gas or NPL will contact you to schedule an appointment to connect the new service line to your property. Your natural gas will need to be shut off for approximately three hours during this stage of the project.

**We may need to perform work which requires entry into your home or business.** Please recognize that our contractors have been advised to take precautions when interacting with customers. Our personnel will take all necessary hygiene precautions, as recommended by the Centers for Disease Control and Prevention (CDC) including avoiding handshakes, maintaining a 6-foot distance and wearing protective gear, when necessary and appropriate.
