For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2002

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

UNITED STATES OF THE STATES OF

Sound Hanof

Executive Director

# Glenview

October 21, 2004

Honorable President and Members of the Board of Trustees Citizens of the Village of Glenview

The Comprehensive Annual Financial Report ("CAFR") of the Village of Glenview (the "Village") for the year ended December 31, 2003 is submitted herewith. This report represents a comprehensive picture of the Village's financial activities during 2003 and the financial condition of its various funds at December 31, 2003. The Village is required to issue annually a report of its financial position and activity presented in conformance with generally-accepted accounting principles ("GAAP") and audited in accordance with generally-accepted auditing standards by and independent firm of certified public accountants. Although formally addressed to the elected officials and citizens of Glenview, this financial report has numerous other users. Foremost among the other users are the bondholders of the Village, financial institutions, educational institutions and other governmental entities.

Responsibility for both the accuracy of the data presented as well as the completeness and fairness of the presentation, including all disclosures, rests with the Village. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the Village and the results of its operations as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the Village's financial affairs have been included.

The comprehensive annual financial report is presented in three sections: introductory, financial and statistical. The introductory section includes this transmittal letter, the Village's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements, and the combining, individual fund and account group financial statements and schedules, as well as the independent auditor's report on the financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis, as well as all continuing disclosures required by Securities Exchange Commission Rule 15c2-12.

# The Reporting Entity and its Services

The Village of Glenview was incorporated in 1899 and operates under the council/manager form of government. The legislative body consists of the Village President and Board of six Trustees, all elected on an at-large basis to overlapping four-year terms. The Village Manager is responsible for the day-to-day operation of the Village. The Village is a home rule municipality as defined by the Illinois Constitution. Located approximately 20 miles north of the City of Chicago, in Cook County, the Village occupies a land area of 13.27 square miles and has a certified 2000 Census of 41,847. Additional demographic information may be found in the statistical section of this report.

The Village provides a full range of general governmental services. Specifically, the Village provides police and fire protection, health services, water and sewer utilities, street construction and maintenance, code enforcement, planning and zoning and general administrative services. In addition to serving Village residents, the Fire Department also provides fire protection and ambulance service to the Glenbrook Fire Protection District which is comprised of approximately 20,000 residents located in unincorporated Cook County and the Village of Golf. Both of these entities have long term intergovernmental agreements with the Village to pay for these services. Likewise, the Village operates the North Maine utilities system which serves 5,100 customers also primarily located in unincorporated Cook County.

The financial statements included in this report are distinctly different in form than those issued in prior years. The statements have been prepared in accordance with Statement No. 34 (Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments) of the Governmental Accounting and Standards Board ("GASB"). The GASB is an organization that establishes accounting and financial reporting standards for state and local governments in the United States. Statement No. 34 significantly changed the required format for governmental statements in a number of ways. The most significant of these changes was to require that governments prepare entity-wide financial statements in addition to the fund-based financial statements governments have traditionally prepared. The entity-wide financial statements attempt to present a government's financial position and results of operations in a manner similar to business. More information about this "new financial reporting model" is provided in Management's Discussion and Analysis ("MD&A"). The MD&A is located in the financial section of this report.

The financial reporting entity of the Village of Glenview is comprised of all funds of the primary government (i.e., the Village of Glenview as legally defined) and its pension trust funds: the Glenview Police Pension Fund and the Glenview Firefighters' Pension Fund. These funds were determined to be pension trust funds due to their fiduciary and fiscal relationships with the Village as their sole purpose is to provide retirement benefits to the Village's sworn police officers and firefighters. The Glenview Public Library is included as a discrete presentation since a separately elected board of trustees governs it. No other legally separate entity qualifies as a component unit of the Village.

# **Accounting System and Budgetary Control**

The accounts of the Village are organized on the basis of funds, each of which is considered a separate and distinct accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Revenues are allocated to and accounted for in individual funds based upon the purpose for which they are to be expended and the means by which spending activities are controlled. The accounting records for general governmental operations are maintained on the modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when materials or services are received and the liability incurred. Accounting records for the Village's enterprise funds, internal service funds, agency funds, and pension trust funds are maintained on the accrual basis of accounting.

Management of the Village is responsible for establishing and maintaining a system of internal accounting controls. These controls are designed to assure that the assets of the Village are safeguarded against any material loss, theft or misuse. These controls assure that the financial statements are in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, but not absolute, assurances that control objectives will be met. The concept of reasonable assurances recognizes that (1) the cost of control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits require estimates and judgment by Management.

The annual budget serves as the foundation for the Village's financial planning and control. State law requires that a municipality operating under the budget system adopt its annual budget prior to the start of its fiscal year. Through the budget, spending authority is conveyed by expenditure object. The legal level of budgetary control is the department level, or, where no departmental segregation of a fund exists, the fund level.

# **Factors Affecting Financial Condition**

**Economic Outlook.** There are several measures of economic health for local governments. Perhaps four of the more objective measures or indicators are local employment levels, retail sales activity, family income levels and construction activity.

Employment levels in the Village have always surpassed that of Cook County and the State of Illinois as a whole. As of December 31, 2003 the Village's unemployment rate was 4.6%, compared to 7.3% for Cook County, 6.7% for the State of Illinois and 6.0% for the United States.

Retail sales within the Village totaled \$1.083 million for 2003. This represents an increase of \$206 million, or 23.6%, from 2002. Retail sales have increased by \$430.7 million, or 66.0% since 2000. While the growth in retail sales has been significant, the Village is pleased to note that its retail base has in fact become more diversified. The Village expects retails sales to remain strong

as additional retail space, currently under construction, comes on line.

Median family income figures from the 2000 Census demonstrate that the average income of Glenview residents far exceeds county and state averages. According to the Census Bureau, Glenview's 2000 median family income was \$96,552, compared to \$53,784 for Cook County, \$55,545 for the State of Illinois and \$50,046 for the United States. This ranked Glenview as the fifth wealthiest community in the State of Illinois amongst communities with populations over 25,000. The Village also ranked fifth in terms of median household income.

New commercial and residential construction activity was significant in 2003 as there were 13 new commercial developments constructed, with a total value of \$20 million and 170 new residential housing permits issued with a total value of \$61 million.

Long-term financial planning. The Village utilizes a 5 year Capital Improvement Program ("CIP") to address major capital and infrastructure improvements. For a project to be included in the CIP, it must involve the creation or purchase if a tangible asset with an original cost of at least \$25,000 and a useful life of more than one year. Projects that are programmed for the first year of the CIP (IE the upcoming budget year) are most closely scrutinized in the capital planning process because associated funding must be provided in that budget. The Village has primarily followed a "pay-as-you-go" funding strategy for maintenance and replacement of assets and has issued debt for new projects.

Cash Management. The Village's policy regarding cash management is based upon the realization that there is a time value to money. A high priority is placed on procedures to ensure that monies due the Village are collected and deposited as promptly as possible. Disbursements are closely controlled. Of equal importance is the emphasis on the management of the Village's investment portfolio. All idle cash is invested in accordance with an established investment policy. The investment policy establishes safety of principal as the foremost objective. The policy provides for full collateralization of all deposits in excess of FDIC limits. The Village is not permitted to leverage its portfolio or invest in risky derivatives.

Risk Management. The Village maintains a protected risk retention program for property, casualty, and workers compensation claims. Health insurance for employees and retirees is provided through a public entity risk pool, the Intergovernmental Personnel Benefit Cooperative. Aggregate umbrella liability coverage is provided through the Village's membership in the Highlevel Excess Liability Pool, another public entity risk pool.

Pensions and Other Post Employment Benefits. Sworn police and fire personnel receive retirement and disability benefits from the Police Pension Fund and the Firefighters' Pension Fund respectively. Both of these plans are defined benefit, single-employer plans administered by local boards of trustees. The defined benefits and employer and employee contribution levels are governed by State statutes. Police participants are required to contribute 9.91% of their base salaries and fire participants are required to contribute 8.455% of their base salaries. The Village

is required to contribute the remaining amounts necessary to finance each plan as determined by an enrolled actuary. Municipalities have until the year 2033 to fully fund their police and firefighter pension plans.

All other employees of the Village who work at least 1,000 hours per year are covered by the Illinois Municipal Retirement Fund, ("IMRF") a statewide pension plan. IMRF acts as a common investment and administrative agent for local governments in Illinois. Benefit provisions and funding requirements are established by State statute.

Employees participating in the IMRF are required to contribute 4.5% of their annual salary and the Village is required to contribute the remaining amounts necessary to fund the coverage of its employees in the plan. The Village's contribution rate for 2003 was 6.49% of employee salaries.

The notes to the financial statements and the required supplementary information provide more information pertaining to employee pensions.

# **Independent Audit**

State statutes require an annual audit by independent certified public accountants. The accounting firm of Sikich Gardner & Co, LLP performed the audit on the Village's 2003 financial statements. The independent auditors' report is included in the financial section of this report. The auditors have given this report an unqualified opinion, meaning that the financial statements fairly present the Village's financial position at December 31, 2003, and the results of operations for the year then ended.

### Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Glenview for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2002. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The Village of Glenview has received a Certificate of Achievement for twenty-one consecutive years (fiscal years ended 1982-2002). We believe our current report continues to conform to the Certificate of Achievement program requirements, and will be submitting it to GFOA.

# Acknowledgments

The preparation of the comprehensive annual financial report was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the Department has my sincere appreciation for the contributions made in the preparation of this report. In particular, I would like to acknowledge the efforts of Daniela Partipilo, Assistant Finance Director, Oscar Richardson, Accounting Supervisor and Brad Wilson, Accountant, for their efforts in compiling the mountains of data necessary to complete this report and implement GASB 34 while at the same time installing new entity wide financial software.

Finally, appreciation is expressed to the Village President and Board of Trustees and the Village Manager for their leadership and support in planning and conducting the fiscal affairs of the Village in a responsible manner.

Respectfully submitted.

# INDEPENDENT AUDITOR'S REPORT

The Honorable Village President Members of the Board of Trustees Village of Glenview Glenview, Illinois

We have audited the basic financial statements and the combining and individual fund financial statements of the Village of Glenview, Illinois, as of and for the year ended December 31, 2003, as listed in the accompanying table of contents. These financial statements are the responsibility of the Village of Glenview, Illinois' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Village of Glenview, Illinois, as of December 31, 2003, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Village of Glenview, Illinois, as of December 31, 2003, and the results of operations of such funds and the cash flows of individual proprietary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Village has adopted the provisions of Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments, Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments: Omnibus, Statement No. 38, Certain Financial Statement Note Disclosures and Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements, as of January 1, 2003. This results in a change in the format and content of the basic financial statements, combining and individual fund financial statements and notes to financial statements.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole and on the combining and individual fund financial statements. The accompanying schedules and the supplemental data listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the financial statements of the Village of Glenview, Illinois. Such information has been subjected to the auditing procedures applied in the audit of the basic, combining and individual fund financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements and each of the combining and individual fund financial statements taken as a whole.

The Management's Discussion and Analysis and the other required supplementary information listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

The introductory and statistical information listed in the table of contents was not audited by us, and accordingly, we do not express an opinion thereon.

Sikich Gardner + 6, CP

Aurora, Illinois September 1, 2004

# VILLAGE OF GLENVIEW, ILLINOIS

# MANAGEMENT'S DISCUSSION AND ANALYSIS

# **DECEMBER 31, 2003**

The Village of Glenview (the "Village") is implementing Governmental Accounting Standards Board ("GASB") Statement No. 34 fiscal year ending December 31, 2003. These new accounting standards are designed to provide two perspectives of the Village's financial performance; a focus on the Village as a whole (government-wide) and a focus on the major individual funds. Both perspectives (government-wide and major fund) provide a broader basis upon which to compare and judge the Village's financial accountability. This improved accountability is in part achieved by consolidating financial transactions (eliminating activities between certain funds and focusing on major funds), allocating specific revenues that finance operations to those expenditures, and displaying information about long-term financial decisions (Is debt used to finance operations? What financial investments are made in capital? What is the impact of outstanding or newly issued debt?).

The Management Discussion and Analysis ("MD & A") is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify Village's financial position and ability to address future challenges, (4) identify material deviations from budget, and (5) identify concerns specific to individual funds.

Since the MD&A is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page iv) and the Village's financial statements. This is the Village of Glenview's first MD&A.

# **Financial Highlights**

- The Village's net assets decreased by \$49,798,927 or 24% during the fiscal year ending December 31, 2003. The governmental net assets decreased by \$56,222,120 and the business-type activities net assets increased by \$6,423,193.
- The Village's combined Governmental Funds ending fund balance decreased \$57,150,343 as of December 31, 2003.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$17,873,812 or 54% of General Fund expenditures.

# USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT

In prior years, the primary focus of local government financial statements has been summarized by fund type information on a current financial resource basis. This approach has been modified, and for the first time the Village's Financial Statements present two kinds of statements, each with a different snapshot of the Village's finances. The new Financial Statements' focus is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government), and enhance the Village's accountability.

### **Government-Wide Financial Statements**

The Government-Wide Financial Statements (see pages 17 - 19) are designed to emulate the corporate sector in that all governmental and business-type activities are consolidated into columns that add to a total for the Primary Government. The focus of the Statement of Net Assets (the "Unrestricted Net Assets") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement, for the first time, combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus. Over time, increases or decreases in net assets may serve as a useful indicator of whether or not the financial position of the Village is improving or deteriorating.

The Statement of Activities (see pages 18 - 19) presents information showing how the Village's net assets changed during the most recent fiscal year and is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the Village's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various government services and/or subsidy to various business-type activities.

The Governmental Activities reflect the Village's basic services, including police, fire, public works, highways and streets, community development, and general administration. Property taxes, shared State sales taxes, local utility taxes, and shared State income taxes finance the majority of these activities. The Business-Type Activities reflect private sector-type operations (Waterworks Fund, Sewerage Fund, Wholesale Water Fund, North Maine Water and Sewer Fund, and the Commuter Parking Lot Fund), where the fee for service typically covers all or most of the cost of operation, including depreciation.

# **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Fund Financial Statement allows the demonstration of sources and uses and/or budgeting compliance associated therewith. Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is now on major funds, rather than (the previous model's) fund types. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

### Governmental Funds

The Governmental Major Fund presentation (see pages 20 - 25) is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. The focus of governmental funds is narrower than that of the Government-Wide Financial Statements. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate the comparison between governmental funds and

governmental activities. The Governmental Major Funds Total column requires a reconciliation because of the different measurement focus (current financial resources versus total economic resources) which is reflected. The flow of current financial resources reflects bond proceeds and interfund transfers as other financial sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation eliminates these transactions and incorporates the capital assets and long-term obligation (bond and others) into the Governmental Activities column (in the Government-Wide Statements).

The Village maintains twenty-six individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Special Tax Allocation Fund, Village Permanent Fund, Bond Series Fund of 1995, Glen Land Sales Fund and the 2001 Project Fund, which are all considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

# Proprietary Funds

The Village maintains two different types of proprietary funds. Enterprise Funds are used to report the same functions presented in Business-Type Activities in the Government-Wide Financial Statements. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the Village's various functions. The Village uses internal service funds to account for the vehicle repair and maintenance program, the vehicle and equipment replacement program, and to account for the cost of property and casualty, health and workers compensation insurance. As Internal Service Funds serve governmental rather than business-type functions, they have been included with Governmental Activities in the Government-Wide Financial Statements.

Proprietary Fund Financial Statements provide the same type of information as the Government-Wide Financial Statements, only in more detail. The Waterworks and North Maine Water and Sewer Funds are considered to be major funds of the Village and are presented in separate columns in the Fund Financial Statements. The Wholesale Water, Sewerage, and Commuter Parking Lot Fund comprise the Village's nonmajor enterprise funds. The Internal Service Funds are combined in a single, aggregate presentation in the Proprietary Fund Financial Statements. Individual fund data for the nonmajor enterprise and internal service funds are presented elsewhere in the report.

# Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government, (Police Pension Fund and Firefighters Pension Fund, see pages 30 - 31). Fiduciary funds are not reflected in the government-wide financial statements because these assets are restricted in purpose and do not represent discretionary assets of the government. The Village maintains two types of fiduciary funds: pension trust funds and agency funds.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and Fund Financial Statements. The Notes to the Financial Statements can be found on pages 32 - 68 of this report.

# Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including the major governmental fund budgetary schedules and data concerning the Village's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 69 – 78 of this report.

The combining statements referred to earlier in connection with nonmajor governmental, enterprise, and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 83 through 164 of this report.

### Infrastructure Assets

Historically, a government's largest group of assets (infrastructure - roads, bridges, storm sewers, etc.) have neither been reported nor depreciated in governmental financial statements. This new statement requires that these assets be valued and reported within the Governmental column of the Government-Wide Statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of assets management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach) which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally-established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The Village has chosen to depreciate assets over their useful life. If a road project is considered a recurring cost that does not extend the road's original useful life or expand its capacity, the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

# GOVERNMENT-WIDE STATEMENT

In accordance with GASB Statement No. 34, the Village is not required to restate prior periods for the purpose of providing comparative information. However, in future years, when prior year information is available, a comparative analysis of Government-Wide information will be presented.

# **Statement of Net Assets**

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the Village of Glenview, assets exceeded liabilities by \$169,680,462 as of December 31, 2003.

The following table reflects the condensed Statement of Net Assets:

Table 1: Statement of Net Assets As of December 31, 2003

	Governmental Activities2003	Business-Type Activities 2003	Total Primary Government 2003
Assets			
Current Assets	\$107,348,523	\$ 16,918,098	\$124,266,621
Noncurrent Assets	<u>134,631,206</u>	34,679,482	<u>169,310,688</u>
Total Assets	\$241,979,729	\$ 51,597,580	\$293,577,309
Liabilities			
Current Liabilities	\$ 30,462,867	\$ 1,670,248	\$ 32,133,115
Long-Term Liabilities	83.264,449	8,499,283	91,763,732
Total Liabilities	\$113,727,316	\$ 10,169,531	\$ 123,896,847
Net Assets:			
Invested in Capital Assets,			
Net of Debt	\$ 47,651,206	\$ 25,625,660	\$ 73,276,866
Restricted	57,086,081	-	57,086,081
Unrestricted	23,515,126	15,802,389	39,317,515
<b>Total Net Assets</b>	\$128,252,413	<u>\$41,428,049</u>	<u>\$169,680,462</u>

For more detailed information see the Statement of Net Assets (page 17).

Net assets may serve over time as a useful indicator of a government's financial position. The Village's assets exceeded liabilities by \$169,680,462 as of December 31, 2003. The largest portion of the Village's net assets is its investment in capital assets (eg. land, infrastructure, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The second component of the Village's net assets are the restricted assets which represent resources held for specific purposes. Of the Village's \$57,086,081 of restricted assets, \$54,591,008 are restricted for capital development. The final component of the Village's net assets are the unrestricted assets in the amount of \$39,317,515, which can be used to finance day-to-day operations.

# **Normal Impacts**

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Assets summary presentation.

<u>Net Results of Activities</u> - which will impact (increase/decrease) current assets and unrestricted net assets.

Borrowing for Capital - which will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital - which will reduce current assets and increase capital assets. There is a second impact, an increase in invested capital assets and an increase in related net debt, which will not change the invested in capital assets, net of debt.

<u>Spending of Nonborrowed Current Assets on New Capital</u> - which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net assets and increase invested in capital assets, net of debt.

<u>Principal Payment on Debt</u> - which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net assets and increase invested in capital assets, net of debt.

<u>Reduction of Capital Assets through Depreciation</u> - which will reduce capital assets and invested in capital assets, net of debt.

# Changes in Net Assets

The following chart shows the revenue and expenses of the Village's activities:

Table 2: Changes in Net Assets for the Fiscal Year Ended December 31, 2003

	Governmental Activities 2003	Business-Type Activities 2003	Total Primary Government 2003
Revenues		<del>-</del>	
Program Revenues			
Charges for Services	\$ 2,009,446	\$ 18,808,357	\$20,817,803

Changes in Net Assets	(\$56,222,120)	\$ 6,423,193	(\$ 49,798,927)
Net Assets January 1	\$184,474,533	\$35,004,856	\$ 219,479,389
Net Assets December 31	<u>\$128,252,413</u>	<u>\$41,428,049</u>	\$ 169,680,462

# **Normal Impacts**

There are eight basic impacts on revenues and expenses as reflected below.

# **Revenues:**

**Economic Condition** - which can reflect a declining, stable, or growing economic environment and has a substantial impact on state income, sales, and utility tax revenue as well as public spending habits for building permits, elective user fees, and levels of consumption.

Increase/Decrease in Village-Approved Rates - while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (property taxes, water, sewer, impact fees, building fees, home rule sales tax, etc.)

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and nonrecurring) - certain recurring revenues (State-shared revenues, etc.) may experience significant changes periodically while nonrecurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment Income - the Village's investment portfolio is managed using a similar average maturity to most governments. Market conditions may cause investment income to fluctuate.

### **Expenses:**

Introduction of New Programs - within the functional expense categories (General Government, Public Safety, and Streets and Highways, etc.), individual programs may be added or deleted to meet changing community needs.

Change in Authorized Personnel - changes in service demand may cause the Village Board to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent 58% of the Village's General Fund and 20% enterprise fund operating costs.

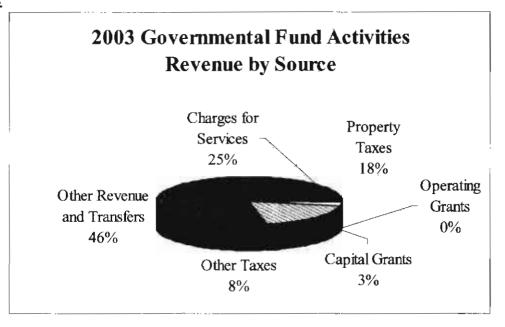

Salary Increases (annual adjustments and merit) - the ability to attract and retain human and intellectual resources requires the Village to strive to approach a competitive salary range position in the marketplace.

**Inflation** - while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels, and parts. Some functions may experience unusual commodity-specific increases.

# **Current Year Impacts**

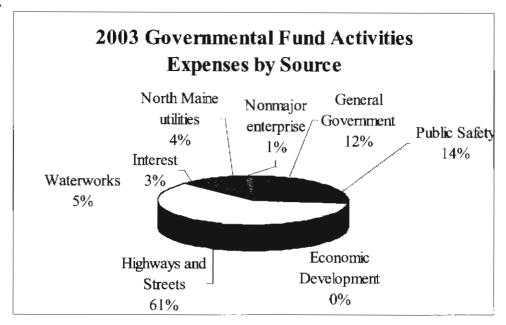

Governmental Activities

### Revenues:

For the fiscal year ended December 31, 2003, revenues from Governmental Activities totaled \$62,170,150. The Village benefits from a highly diversified revenue base. During the fiscal year Other Revenues and Transfers (which include State sales and income tax distributions and the Glenbrook Fire Protection District payment to the Village) continued to be the Village's largest revenue source at \$36,882,565, or 46% of total Governmental Activity revenue. Within this category, state-shared sales tax, which reflects economic activity within the Village, increased from \$8.8 million in 2002 to \$10.8 million in 2003 while state-shared revenues such as income tax and use tax, which are distributed on a per-capita basis and reflect the Illinois economy, declined from \$3.2 million \$2.9 million. Property Taxes totaled \$14,983,339 representing 18% of the total Governmental Activity revenue. The Village maintained its property tax levy at \$8,230,905 for 2003, the same amount levied since 2000. The balance of property tax revenue, or \$6,752,434, is attributable to the property tax increment earned in the Village's redevelopment district. Other Taxes, at \$6,354,530, is primarily attributable to the Village's utility and telecommunications taxes.

# **Expenses:**

For the fiscal year ended December 31, 2003, expenses from Governmental Activities totaled \$118,392,270 with Highways and Streets, at 61%, accounting for the largest share of the total followed by Public Safety and General Government. Of the \$79.3 million associated with Highway and Streets, \$62.0 million is associated with infrastructure improvements within the Village's redevelopment district.

For the fiscal year ended December 31, 2003, the Governmental Funds reflect combined net assets of \$128,252,413.

# **Business-Type Activities**

# Revenues:

For the fiscal year ended December 31, 2003, revenues from Business-Type Activities totaled \$19,496,209. The Village's various water and sewer utilities generated \$15.5 million in Charges for Services. During 2003 the Village negotiated an amendment to a long standing contract with a private sector utility company to provide water for an area served by the company. As a result of the amendment, the Village received \$1.166 million for improvements to it system and the Village anticipates the consumption in the area serviced by the company will increase modestly over time.

# **Expenses:**

For the fiscal year ended December 31, 2003, expenses from Business-Type Activities totaled \$13,073,017.

# FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

### Governmental Funds

At December 31, 2003 the Governmental Funds (as presented on page 21) reported a combined fund balance of \$69,811,258 which is a 45.01% increase from the beginning of the year of \$126,961,601. Of the total fund balance, \$12,538,397 is unreserved indicating availability for continuing Village services. Reserved fund balance of \$57,272,861 includes \$54,591,008 for capital development and \$1,067,757 for debt service.

The General Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. The total fund balance of the General Fund increased by \$198,602, or 1.2%, from Fiscal Year 2002. The net change in fund balance for Fiscal Year 2002 was an increase of \$1,960,129. The net change in fund balance for Fiscal Year 2003 was an increase of \$198,602 which was a \$1,761,527 decrease in operations. Revenues increased by \$2,913,693 or 9.6%, and net financing uses decreased by \$40,580 or 3.1% from the prior year which had a positive effect on the change in fund balance. Expenditures increased by \$2,953,965 or 9.8% from the prior year.

# Proprietary Funds

At December 31, 2003 the Proprietary Funds (as presented on pages 26 - 29) total net assets increased by \$6,423,193 or 18.3%. This increase is primarily due to the increase of operating revenues of \$2,940,829, compared to an increase in operating expenses of \$745,681, and contributions of \$2,137,129.

# GENERAL FUND BUDGETARY HIGHLIGHTS

Table 3: General Fund Budgetary Highlights

	Original <u>Budget</u>	Final <u>Budget</u>	Actual
Revenues	\$30,256,920	\$30,256,920	\$33,342,411
Expenditures	33,167,459	33,167,459	33,161,319
Excess of Revenues			
over Expenditures	(\$ 2,910,539)	(\$ 2,910,539)	\$ 181,092
Other Financing Sources			
(Uses)	\$ 888,247	<u>\$ 888,247</u>	\$ 17,510
Net Changes in Fund Balance	ce (\$ 2,022,292)	<u>(\$ 2,022,292)</u>	\$ 198,602

Many local revenues performed well in the fiscal year and include:

	Fiscal Year2002	Fiscal Year  2003	Revenue Increase
Municipal Sales Tax	\$8,765,038	\$10,830,776	\$ 2,065,738
Telecommunications Tax	\$1,869,589	\$ 2,910,237	\$ 1,040,648

The General Fund budget was not amended during the fiscal year.

General Fund actual revenues were \$3,085,491 greater than the original and final budget amount. The most significant causes of this were the strength in sale tax revenues and the telecommunication tax.

The Special Tax Allocation Fund, also a major governmental fund, received \$6,572,481 in property tax increment as developed parcels are added to the tax roles. It is expected that the incremental revenue will increase to \$20 to \$25 million over the next 3 to 5 years. These revenues are used to pay the development costs associated with the Village's Redevelopment District.

# CAPITAL ASSETS

The Village's investment in capital assets for its Governmental and Business-Type Activities as of December 31, 2003, amounts to \$169,310,688. The investment in capital assets includes land, buildings, equipment, improvements other than buildings, underground systems, infrastructure, and construction in progress. This amount represents a net decrease (including additions, deductions, and depreciation) of \$2,603,801. Detailed information regarding the change in capital assets for Governmental and Business-Type Activities is included in the Notes to the Financial Statements on pages 44 and 45.

The Governmental Activities net capital assets decreased from last year by \$2,525,497. This is attributable to the fact that the amount of additions was less than the amount of depreciation expensed this year. The Business-Type Activities net capital assets increased by \$3,293.

# DEBT OUTSTANDING

In Fiscal Year 2003, the Village issued \$9,990,000 in General Obligation Refunding Bonds, Series 2003A. The proceeds were used to advance refund \$4,735,000 of the Village's General Obligation Bonds, Series 1996, by funding an escrow to call and redeem those bonds on December 1, 2003 at a price of par plus accrued interest; \$3,520,000 of the Village's General Obligation Bonds, Series 1997 and by funding an escrow to call and redeem those bonds on December 1, 2004 at a price of par plus accrued interest; and to provide cash for system improvements to the North Maine utility system.

The Village also issued \$1,955,000 in General Obligation Refunding Bonds, Series 2003B. The proceeds were used to call on April 4, 2003 the Village's outstanding \$1,920,000 General Obligation Bonds, Series 1992 (Alternative Minimum Tax).

The Village currently has ten general obligation bond series and one note series which were used to acquire the North Maine utility system outstanding. Total general obligation debt is \$94,010,000 of which \$86,980,000 is supported by a tax levy with the balance abated from water system revenues and property tax increment generated in the TIF Redevelopment District. The tax increment financing bonds were issued for infrastructure improvements in the TIF Redevelopment District located at The Glen. The issuance of these bonds did not produce a fixed asset for the Village; therefore, the unrestricted net assets for Governmental Activities have been reduced by the amount of these bonds.

The Village, under its home rule authority, does not have a legal debt limit. During Fiscal Year 2003, the Village's Aaa bond rating was reaffirmed by Moody's Investors Service citing the Village's well-managed financial operations, moderate direct debt burden, and aggressive retirement of its general obligation bonds. The Village will be issuing debt in 2004 to fund the construction of a new Police Station Headquarters, estimated to cost approximately \$20 million.

Additional information of the Village's long-term debt can be found in the Notes to the Financial Statements on pages 49 - 53.

# ECONOMIC FACTORS AND NEXT YEAR'S BUD GET

The Village's composition is primarily residential but with a significant commercial component. The property tax revenue derived from the residential, commercial, and industrial properties is stable. State shared revenues which are distributed on a per capita basis, including income and use taxes, and the elimination of the photoprocessing tax, were negatively affected by the general downturn in the State's general economy. Investment income was negatively impacted by the decline in interest rates. Sales tax revenues, however, increased during the year due to commercial development throughout the Village. The commercial component includes soft goods, restaurants, and other food and retail businesses.

The Fiscal Year 2004 budget maintains the Village's property tax levy constant at \$8.2 million. Building permit revenues and planning and inspections fees are expected to remain strong as development of the The Glen, and redevelopment throughout the Village, continues. Sales tax revenue is expected to remain strong as additional retailers come on line. In addition, the Village approved a one-half of one percent Home Rule Sales Tax ("HRST"). The HRST will not take effect until July 2004 and collections will not be received until October 2004. It is anticipated that the HRST will generate \$1 million in its first year with \$850,000 designated for capital investment.

Budgeted expenditures include increases due to salary adjustments and health and liability insurance costs and the hiring of three firefighters, two police officers and a maintenance equipment operator in Public Works. Pension costs are expected to increase due to the general decline investment climate and increases in benefits approved by the State of Illinois.

# CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Daniel P. Wiersma, Director of Finance, Village of Glenview, 1225 Waukegan Road, Glenview, Illinois 60025.

# RECONCILIATION OF FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET ASSETS

### December 31, 2003

FUND BALANCES OF GOVERNMENTAL FUNDS	\$ 69,811,258
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds	134,595,233
reported in the governmental funds	134,393,233
The net pension asset is not a current financial resource and is therefore not reported in the governmental funds	380,571
The unamortized bond discount and unamortized bond issuance cost is not a current financial resource and	
is therefore not reported in the governmental funds	74,211
Interest payable is not due and payable in the current period and therefore, not reported in the governmental funds	(303,360)
Long-term liabilities, including bonds payable, are not due and payable in the current period and,	
therefore, are not reported in the governmental funds	(88,349,012)
The unrestricted net assets of the internal service funds are included in the governmental activities in the	
statement of net assets	12,043,512
NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ 128,252,413

### RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS  Amounts reported for governmental activities in the statement activities are different because:	\$ (57,150,343)
Governmental funds report capital outlay as expenditures, however, they are capitalized and depreciated in the statement of activities	1,179,192
The change in net pension asset is not a current financial resource and therefore is not reported in the governmental funds	(4,596)
The issuance of long-term debt is reported as an other financing source in governmental funds but as an increase of principal outstanding in the statement of activities	(6,150,000)
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of assets	4,700,000
The payment of bond proceeds to escrow is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of net assets	4,767,130
Depreciation in the statement of activities does not require the use of current financial resources and, therefore, are not reported as expenditures in Governmental funds Internal service fund depreciation addback	(3,704,689) 7,994
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds	375,257
The net revenue (loss) of certain activities of internal service funds is reported with governmental activities	(242,065)
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ (56,222,120)

### NOTES TO FINANCIAL STATEMENTS

December 31, 2003

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Glenview, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America (hereinafter referred to as generally accepted accounting principles (GAAP)), as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

### a. Reporting Entity

The Village is a municipal corporation governed by an elected seven-member board. As required by generally accepted accounting principles, these financial statements present the Village (the primary government) and its component units.

The Village's financial statements include pension trust funds:

Police Pension Employees Retirement System

The Village's police sworn employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board consisting of two members appointed by the Village's President, one elected pension beneficiary and two elected police. The Village and PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, the PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. The PPERS is reported as a pension trust fund.

### a. Reporting Entity (Continued)

Firefighters' Pension Employees Retirement System

The Village's firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of these employees and is governed by a nine-member pension board consisting of the Village's President, Treasurer, Clerk, Attorney and Fire Chief; one elected pension beneficiary; and three elected fire employees. The Village and FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, the FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's firefighters and because of the fiduciary nature of such activities. The FPERS is reported as a pension trust fund.

Discretely Presented Component Unit - Village of Glenview Public Library (the Library)

The Library has a separately elected seven-member board, which annually determines its budget and resulting tax levy. Upon approval of the Village, the levy is submitted to the County. All debt of the Library is secured by the full faith and credit of the Village, which is wholly liable for the debt. Because the Library possesses the characteristics of a legally separate government and does not service the primary government, the Library is being reported as a discrete presentation. Separate financial statements are disclosed in the component unit portion of this report; the Library does not issue separate financial statements.

### b. Fund Accounting

The Village uses funds to report on its financial position, results of its operations, and cash flows. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Funds are classified into the following categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

### b. Fund Accounting (Continued)

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of capital assets (capital projects funds), and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the Village (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. When these assets are held under the terms of a formal trust agreement, a pension trust fund is used. Agency funds generally are used to account for assets that the Village holds on behalf of others as their agent.

### c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

c. Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

The General Fund, also referred to as the Corporate Fund, is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Tax Allocation Fund accounts for the incremental property tax revenue that is generated through the growth of the assessed valuation at the GNAS.

The Village Permanent Fund is used to accumulate 20% of the land sales proceeds of the Glenview Naval Air Base for village-wide improvements as well as short-term liquidity to the Village's TIF projects encompassing The Glen.

The GNAS Bond Fund Series 1995 Fund is used to account for various development and other projects related to the Glenview Naval Air Base and financed with the General Obligation Bond Anticipation Bond Series of 1995.

The Glen Land Sales Fund accounts for grant funds, land sales, and property tax revenues (via the Tax Increment Finance District) related to Glenview Naval Air Base.

2001 Project Fund accounts for the funds derived from the 2001 General Obligation Bond issue.

The Village reports the following major proprietary funds:

The Waterworks Fund accounts for the provision of water service to the residents of Glenview. All activity necessary to provide such services is accounted for in this fund including, but not limited to, administration (Director of Public Works), operation, maintenance, financing and related debt service and billing and collection.

c. Government-Wide and Fund Financial Statements (Continued)

The North Maine Water and Sewer fund accounts for all financial activity related to the Village providing water and sewer service to an unincorporated area southwest of the Village. This area was formerly served by the North Suburban Public Utilities Company.

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Incidental revenues/expenses are reported as non-operating.

Governmental fund financial statements are reported using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds and pension trust funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period. The Village recognizes property taxes when they become both measurable and available in the period intended to finance. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, interest revenue and charges for services. Sales taxes owed to and fines collected and held by the state/county court at year end on behalf of the Village also are recognized as revenue. Permit revenues are not susceptible to accrual because, generally, they are not measurable until received in cash.

The Village reports deferred revenue on its financial statements. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" or earned criteria for recognition in the current period. Deferred revenues also arise when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the Village has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

### e. Cash and Investments

For purposes of the statement of cash flows, the Village's proprietary fund types consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

### f. Investments

Investments with a maturity of less than one year when purchased and non-negotiable certificates of deposit are stated at cost or amortized cost. Investments with a maturity of greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is based on prices listed on national exchanges as of December 31, 2003 for debt and equity securities. Mutual funds, investment funds and insurance separate accounts are valued at contract value as of December 31, 2003.

### g. Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans, if any, are classified as "interfund receivables/payables." Long-term loans between funds are reported as "advances to/from other fund".

### h. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased.

### i. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses.

### j. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost in excess of \$25,000 and an estimated useful life in excess of one year.

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Property, plant and equipment is depreciated using the straight line method over the following estimated useful lives:

### j. Capital Assets (Continued)

Assets	<u>Years</u>
Buildings, Improvements and Infrastructure	25-80
Machinery and Equipment	5-10

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

### k. Compensated Absences

The Village accrues a liability for vacation benefits as these benefits are earned. At December 31, 2003, the liabilities for these accumulated unpaid benefits are accounted for in the Enterprise Funds at all levels and in the governmental activities column in the government-wide financial statements. In the governmental fund financial statements a liability has been accrued for amounts owed to employees who have retired or terminated employment by the end of the year.

### l. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type financial statements. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### m. Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. Invested in capital assets, net of related debt is the book value of capital assets less any long-term debt outstanding that was issued to construct or acquire the capital assets.

### n. Interfund Transactions

Interfund services transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund services transactions and reimbursements, are reported as transfers.

Advances between funds, if any, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

### o. GASB Pronouncements

The Village has elected, under the provisions of GASB Statement 20, titled "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting," to apply all applicable GASB pronouncements and all FASB Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB) issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements.

### 2. LEGAL COMPLIANCE AND ACCOUNTABILITY (Continued)

Deficit Fund Balances of Individual Funds

The following funds had a deficit in fund balance as of the date of this report:

Fund	Deficit Balance
GNAS Redevelopment	\$ 72,378
GNAS Caretaker	164,915
Corporate Purpose Bond Series of 1996	338
Corporate Purpose Bond Series of 2003	43,517
GNAS Bond Fund Series 1995	2,513,360
Glen Land Sales	4,935,197

### 3. CASH AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds, except the pension trust funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds. Cash on hand of \$5,450 for the primary government and cash on hand of \$1,072 for the component unit has been excluded from the amounts shown below.

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and the Illinois Funds. Pension funds may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions and Illinois insurance company general and separate accounts, mutual funds and equity securities.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, for which the price the investment could be sold.

### CASH AND INVESTMENTS (Continued)

### a. Deposits

At year end, the carrying amount of the primary government's deposits totaled \$29,976,163 and the bank balances totaled \$31,143,934. The carrying amount of the component unit's deposits totaled \$1,178,524 and the bank balances totaled \$1,227,209.

	Bank Balances			
	Primary	Component		
	Government	Unit		
Category 1  Deposits covered by federal depository insurance, or by collateral held by the Village, or its agent, in the Village's name.	\$ 31,143,934	\$ 1,227,209		
Category 2 Deposits covered by collateral held by the pledging financial institution's trust department, or its agents, in the Village's name.	-	-		
Category 3  Deposits covered by collateral held by the pledging financial institution, or its trust department, or its agent but not in the Village's name, and deposits which are uninsured and uncollateralized.				
TOTAL DEPOSITS	\$ 31,143,934	\$ 1,227,209		

For pension trust funds, the types of deposits authorized and the mix of credit risk categories do not differ significantly from the other funds of the Village.

### b. Investments

The Village's investments are categorized to give an indication of the level of custodial credit risk assumed by the entity at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the Village or its agent in the Village's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the Village's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty in the Village's name, or held by any third party not in the Village's name, and uninsured, unregistered investments.

### Component Unit

Investments for the Component unit consist of \$403,219 of Illinois Funds. Illinois Funds are not subject to custodial credit risk categorization, and the fair value of the position in the external pool is the same as the value of the pool shares.

### 4. RECEIVABLES

Property taxes for 2003 attach as an enforceable lien on January 1, 2003 on property values assessed as of the same date. Taxes are levied by December of the fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about February 1, 2004 and August 1, 2004 and are payable in two installments, on or about March 1, 2004 and September 1, 2004. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 2% of the tax levy, to reflect actual collection experience. Since the 2003 levy is intended to fund the 2004 fiscal year, the levy has been recorded as a receivable and deferred revenue.

### CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2003 was as follows:

### **Primary Government**

### RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. The Village is self-insured (and participates in two public employee risk pools for health claims) for general liability, auto, property and workers' compensation risks and has established a risk-financing fund, Insurance Fund (Fund), for all risks. It is accounted for as an internal service fund where assets are set aside for claim settlements. Under this program, the Fund provides coverage up to a maximum of \$1,000,000 for each general liability claim, \$50,000 for each workers' compensation claim and \$50,000 for each property damage claim. The Village purchases commercial insurance for claims in excess of the coverages provided by the Fund. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the Village participate and make payments to the Fund based upon actuarial estimates of the amounts needed to pay prior and current year claims. Liabilities of the Fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts and other economic and societal factors. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	 2003	2002		
CLAIMS PAYABLE, JANUARY 1 Add claims incurred Less claims paid	\$ 176,585 744,350 (555,871)	\$ 372,996 647,298 (843,709)		
CLAIMS PAYABLE, DECEMBER 31	\$ 365,064	\$ 176,585		

Intergovernmental Personnel Benefit Cooperative (IPBC)

The Village participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by its members to their officers and employees and to the officers and employees of certain other governmental, quasi-governmental and nonprofit public service entities. Risk of loss is retained by the Village, except that IPBC purchases excess coverage policies.

Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are three officers, a Benefit Administrator, and a Treasurer. The Village does not exercise any control over activities of IPBC beyond its representation on the Board of Directors.

### 6. RISK MANAGEMENT (Continued)

High-Level Excess Liability Pool (HELP)

The Village participates in the High-Level Excess Liability Pool (HELP). HELP is a public entity risk pool established by certain municipalities in Illinois to provide excess liability coverage (\$10,000,000 of coverage after a \$2,000,000 self-insurance retention). The Village's payments to HELP are displayed on the financial statements as expenses in the Insurance Fund.

HELP was organized on April 1, 1987. The purpose of HELP is to act as a joint self-insurance pool for the purpose of seeking the prevention or lessening of liability claims for injuries to persons or property or claims for errors and omissions made against the members and other parties included within the scope of coverage of HELP.

HELP is governed by a Board of Directors, which consists of one appointed representative from each member municipality. Each director has an equal vote. The officers of HELP are appointed by the Board of Directors. The Board of Directors determines the general policy of HELP; makes all appropriations; approves contracts; adopts resolutions providing for the issuance of debt by HELP; adopts bylaws, rules and regulations; and exercises such powers and performs such duties as may be prescribed in the Agency Agreement or the bylaws.

The Village does not exercise any control over the activities of HELP beyond its representation on the Board of Directors.

### LONG-TERM DEBT

### a. Changes in Long-Term Liabilities

During the fiscal year, the following changes occurred in liabilities reported for long-term liabilities:

	January l	 Additions Reduc		Reductions December 31		Current Portion	
GOVERNMENTAL ACTIVITIES General obligation bonds Compensated absences	\$ 90,195,000 1,737,690	\$ 6,150,000	\$	9,365,000 368,678	\$	86,980,000 1,369,012	\$ 4,805,000 205,3 <u>52</u>

### 7. LONG-TERM DEBT (Continued)

### b. General Obligation Bonds

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary activities. These bonds therefore are reported in the proprietary funds if they are expected to be repaid from proprietary revenues.

General obligation bonds are direct obligations and pledge the full faith and credit of the Village. General obligation bonds currently outstanding are as follows:

	Fund Debt Retired By	Balances January 1	Additions	Reductions	Balances December 31	Current Amount
\$2,895,000 Corporate Purpose Bonds Series of 1992 dated April 1, 1992, due in annual installments of \$10,000 to \$255,000 plus interest at 4.00% to 5.90% through December 1, 2012.	Whole- sale Water	<b>\$</b> 1,920,000	\$ .	\$ 1,920,000	\$ -	\$ -

### 7. LONG-TERM DEBT (Continued)

### c. Notes Payable

The Village enters into notes payable to provide funds for the acquisition of capital assets. Notes payable have been issued for proprietary activities. The proprietary liabilities are therefore reported in the proprietary funds.

Note payable currently outstanding is as follows:

Issue	Fund Debt Retired By	Balances January 1	Additions	Reductions	Balances December 31	Current Amount
\$2,850,000 Corporate Purpose Note of 1997 dated						
September 2, 1997, due in annual installments of	North Maine					
\$215,377 plus interest paid at 4.942% through	Water and					
September 1, 2019.	Sewer	\$ 2,438,674	s -	\$ 94,852	2 \$ 2,343,822	\$ 99,539

### d. Debt Service Requirements to Maturity

Annual debt service requirements to maturity are as follows:

Fiscal Year Ending	General Obligation Bonds				General Obligation Bonds Carried as Enterprise Fund Liabilities				Corporate Purpose Notes Carried as Enterprise Fund Liabilities			
December 31		Principal		Interest	,	Principal In		Interest		Principal		Interest
2004	\$	4,805,000	\$	3,527,566	\$	455,000	\$	234,816	\$	99,539	\$	115,838
2005		9,065,000		3,367,487		475,000		219,136		104,459		110,918

TOTAL	_\$	86,980,000	\$	23,286,144	\$	7,030,000	\$	1,761,794	\$	2,343,822	\$	1,102,197

#### 7. LONG-TERM DEBT (Continued)

e. Legal Debt Margin

The Government is a home rule municipality.

Article VII, Section 6(k) of the 1970 Illinois Constitution governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property . . . (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: . . . indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum . . . shall not be included in the foregoing percentage amounts."

To date, the General Assembly has set no limits for home rule municipalities.

f. Advance Refunding - General Obligation Refunding Bonds, Series 2003A and 2003B.

On April 1, 2003, the Village issued \$9,990,000 General Obligation Refunding Bonds, Series 2003A and \$1,995,000 2003B bonds. The proceeds of the Series 2003A General Obligation Refunding Bonds were used to call \$4,735,000 of the 1996 Series General Obligation Bonds of 1996, created an escrow to call \$3,520,000 of the 1997 Series General Obligation Bonds of 1997 on December 1, 2004 and to provide cash for infrastructure improvements to the North Maine utility system. The proceeds of the Series 2003B General Obligation Refunding Bonds were used to fully call the 1992 Series General Obligation Bonds. This advance refunding was undertaken to reduce total debt service payments over the next fourteen years by \$1,017,148, and to obtain an economic gain (difference between the present value of the debt service payments of the refunded and refunding bonds) of \$867,987 of the old debt.

#### g. Noncommitment Debt

Special Service Area Bonds

Special service area bonds outstanding as of the date of this report totaled \$705,202. These bonds are not an obligation of the Village and are secured by the levy of special service on the real property within the special service area. The Village is in no way liable for repayment but is only acting as the agent for the property owners in levying and collecting the assessments and forwarding the collections to the bondholders.

#### 7. LONG-TERM DEBT (Continued)

g. Noncommitment Debt (Continued)

Conduit Debt

The Village has issued Industrial Development Revenue Bonds (IDRBs) to provide financial assistance to private organizations for the construction and acquisition of industrial and commercial improvements deemed to be in the public interest. The bonds are secured solely by the property financed and are payable solely from the payments received on the underlying mortgage loans on the property. The Village is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds outstanding are not reported as a liability in these financial statements. As of December 31, 2003, there was one series of IDRBs outstanding. The aggregate principal amount payable for the IDRBs outstanding was \$9,020,000.

#### 8. CONTRACTUAL COMMITMENTS

a. High-Level Excess Liability Pool (HELP)

The Village has committed to purchase excess liability insurance from the High-Level Excess Liability Pool (HELP), a public entity risk pool for certain Illinois municipalities through April 30, 2008.

These amounts have been calculated using the Village's current allocation percentage of 8.84%. In future years, this allocation percentage will be subject to change because the HELP Agreement provides that each year members will be assessed based upon a formula that specifies the following four criteria for allocating premium costs:

Miles of Streets
Full-Time Equivalent Employees
Number of Motor Vehicles
Operating Revenues

b. Solid Waste Agency of Northern Cook County (SWANCC)

The Village has committed to pay its share of the annual operating costs and fixed costs of the SWANCC. The Village's share of costs is expected to be funded through tipping fees paid by refuse haulers. The Village began delivering refuse to SWANCC in May of 1995.

#### 8. CONTRACTUAL COMMITMENTS (Continued)

### b. Solid Waste Agency of Northern Cook County (SWANCC) (Continued)

SWANCC has entered into solid waste disposal contracts with the twenty-three member municipalities. The contracts are irrevocable and may not be terminated or amended except as provided in the contract. Each member is obligated, on a "take or pay" basis, to purchase, or in any event, to pay for a minimum annual cost of the system.

The obligation of the Village to make all payments as required by this contract is unconditional and irrevocable, without regard to performance or nonperformance by SWANCC of its obligations under this contract.

- \$330,000 transfer to Capital Projects Fund from the Sewerage Fund to fund various projects.
- \$697,256 transfer to Village Permanent Fund from the Glen Land Sales Fund per ordinance to contribute 20% of sales for future infrastructure improvements.

Interfund Transfers (Continued)

• \$17,803,419 transfer to GNAS Bond Fund Series of 1995 from the 2001 Projects Fund for infrastructure improvements for the Redevelopment District per ordinance.

#### Component Unit

Transfers In	Transfers Out	1	Amount
Component Unit Primary Government	Primary Government Component Unit	\$	123,540 232,897

- \$123,540 transfers to the Library from the General Fund for various capital expenditures.
- \$232,897 transfers to the General Fund from the Library to reimburse for expenditures.

#### 10. CONTINGENT LIABILITIES

#### a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village Attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

#### b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

#### c. High-Level Excess Liability Pool (HELP)

The Village has committed to purchase excess liability insurance from the High-level Excess Liability Pool (HELP) through April 30, 2008. The Village expects to make the following payments to HELP:

### 10. CONTINGENT LIABILITIES (Continued)

#### c. High-Level Excess Liability Pool (HELP) (Continued)

Year Ending December 31	Amount
2004	\$ 142,888
2005	142,888
2006	142,888
2007	142,888
2008	142,888

#### d. Solid Waste Agency of Northern Cook County (SWANCC)

The Village has committed to make payments to SWANCC for solid waste refuse disposal and expects to pay the following amounts:

Year Ending December 31	Amount
2004	\$ 216,042
2005	216,084
2006	216,016
2007-2022	2,159,727

These amounts have been estimated based upon the Village's commitment for 2003. In future years, the annual expense will be subject to change based upon the actual tonnage of refuse disposed of and current SWANCC costs.

#### e. Municipal Infrastructure Maintenance Fees

Effective January 1, 1998, the Village imposed a municipal telecommunications infrastructure maintenance fee (IMF) on persons in the business of transmitting, supplying, or furnishing telecommunications and all associated services (e.g., telecommunications retailers) in Illinois for the "use of public right-of-ways". The fee was authorized by state statute (35 ILCS 635). In March 2001, a wireless telecommunications provider brought action against an Illinois government challenging the constitutionality of the municipal telecommunications infrastructure maintenance fee. The Illinois Supreme Court (Court) found the IMF to be unconstitutional as applied to wireless carriers. The Court's decision held upon appeal. The municipal IMF fee was eliminated effective December 31, 2002. Potential damages to the Village under this case precedent could aggregate the total of amounts remitted to the Village for IMF by all carriers during the period from January 1, 1998 through December 31, 2002. The Village has estimated a liability under potential IMF lawsuits in the amount of \$974,017 for amounts paid under protest during this time. The liability has been accrued and is presented as an other liability in these financial statements.

#### 11. JOINT VENTURES

Solid Waste Agency of Northern Cook County (SWANCC)

Description of Joint Venture

The Village is a member of the Solid Waste Agency of Northern Cook County (SWANCC) which consists of twenty-three municipalities. SWANCC is a municipal corporation and public body politic and corporate established pursuant to the Constitution of the State of Illinois and the Intergovernmental Cooperation Act of the State of Illinois, as amended (the Act). SWANCC is empowered under the Act to plan, construct, finance, operate and maintain a solid waste disposal system to serve its members.

SWANCC is governed by a Board of Directors which consists of one appointed mayor or president from each member municipality. Each director has an equal vote. The officers of SWANCC are appointed by the Board of Directors. The Board of Directors determines the general policy of SWANCC; makes all appropriations; approves contracts; adopts resolutions providing for the issuance of bonds or notes by SWANCC; adopts bylaws, rules and regulations; and exercises such powers and performs such duties as may be prescribed in the SWANCC Agreement or the bylaws.

Complete financial statements for SWANCC can be obtained from the SWANCC's administrative office at 1616 East Golf Road, Des Plaines, Illinois 60016 or available on the web at www.swancc.com.

SWANCC's outstanding bonds are revenue obligations. They are limited obligations of SWANCC with a claim for payment solely from and secured by a pledge of the revenues of SWANCC and amounts in various funds and accounts established by agency resolutions. The bonds are not the debt of any member. SWANCC has no power to levy taxes.

Revenues of SWANCC consist of (1) all receipts derived from solid waste disposal contracts or any other contracts for the disposal of waste; (2) all income derived from the investment of monies; and (3) all income, fees, and service charges and all grants, rents and receipts derived by SWANCC from the ownership and operation of the system. SWANCC covenants to establish fees and charges sufficient to provide revenues to meet all its requirements.

In accordance with the contract, the Village made \$705,975 in payments to SWANCC for the year ended December 31, 2003. The payments are recorded in the Refuse and Recycling Fund. The Village does not have an equity interest in SWANCC at December 31, 2003.

#### 12. POSTEMPLOYMENT BENEFITS

In addition to providing the pension benefits described, the Village provides postemployment health care benefits for retired public safety employees. Substantially all of the Village's public safety employees may become eligible for those benefits if they reach normal retirement age while working for the Village. The cost of retiree health care benefits is recognized as an expenditure as claims are paid. For the fiscal year, those costs total \$284,006 for the 65 participants. The retirees pay an annual premium, which is equal to the actuarially determined cost for each plan year. Accordingly, no liability has been recorded for post-retirement health care benefits.

#### 13. EMPLOYEE RETIREMENT SYSTEMS

#### a. Plan Descriptions and Provisions

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and, the Firefighters' Pension Plan which is also a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for all three plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. None of the pension plans issue separate reports on the pension plans. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

#### Illinois Municipal Retirement Fund

All employees (other than those covered by the Police or Firefighters' plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service. Participating members who retire at or after age 60 with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund the IMRF as specified by statute. The employer contribution for the year ended December 31, 2003 was 6.49% of covered payroll.

a. Plan Descriptions and Provisions (Continued)

#### Police Pension

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (Chapter 40 Article 5/3) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. At December 31, 2002, the Police Pension Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits	33
Terminated employees entitled to benefits but not yet	
receiving them	1
Current employees	
Vested	46
Nonvested	29
	,
TOTAL	109

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held on the last day of service or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.00% of the original pension and 3.00% compounded annually thereafter.

Employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective July 1, 1993, the Village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is fully funded by the year 2033. For the year ended December 31, 2002, the Village's contribution was 11.41% of covered payroll.

#### a. Plan Descriptions and Provisions (Continued)

#### Firefighters' Pension

Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contributions levels are mandated by Illinois Compiled Statutes (Chapter 40 Article 5/4) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. At December 31, 2002, the Firefighters' Pension Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits	45
Terminated employees entitled to benefits but not yet	
receiving them	1
Current employees	
Vested	44
Nonvested	37
TOTAL	127

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one-half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by 1/12 of 2.50% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75.00% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a covered employee who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Covered employees are required to contribute 8.455% of their salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective July 1, 1993, the Village's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is fully funded by the year 2033. For the year ended December 31, 2002, the Village's contribution was 10.40% of covered payroll.

### b. Summary of Significant Accounting Policies

The pension trust funds use the accrual basis of accounting. Contributions and benefits are recognized when due. Administrative cost are financed by investment income.

There are no investments (other than U.S. government and U.S. government guaranteed obligations) in any one organization that represent 5.00% or more of net assets for either the Police or the Firefighter's Pension Plans. Information for IMRF is not available.

Employer contributions have been determined as follows:

	Illinois Municipal Retirement	Police Pension	Firefighters' Pension
Actuarial Valuation Date	December 31,	January 1,	January 1,
	2001	2003	2003
Actuarial Cost Method	Entry-age	Entry-age	Entry-age
	Normal	Normal	Normal
Asset Valuation Method	5 Year Smoothed Market	Market	Market
Amortization Method	Level	Level	Level
	Percentage of	Percentage of	Percentage of
	Payroll	Payroll	Payroll
Amortization Period	10 Years,	32 Years,	32 Years,
	Closed	Closed	Closed
Significant Actuarial Assumptions a) Rate of Return on Present and Future Assets	7.50%	8.00%	8.00%
	Compounded	Compounded	Compounded
	Annually	Annually	Annually
b) Projected Salary Increase - Attributable to Inflation	4.00% Compounded Annually	3.00% Compounded Annually	3.00% Compounded Annually
c) Additional Projected Salary Increases - Seniority/Merit	.40 to 11.60%	2.50%	2.50%
d) Post-Retirement Benefit Increases	3.00%	3.00%	3.00%

#### b. Significant Investments (Continued)

Employer annual pension cost (APC), actual contributions and the net pension obligation (asset) (NPO) are as follows. The NPO (asset) is the cumulative difference between the APC and the contributions actually made.

			Illinois				
		Municipal			Police		refighters'
	Year	R	etirement*		Pension*		Pension*
Annual Pension Cost (APC)	2000 2001	\$	825,173 796,191	\$	186,505 435,292	\$	45,527 403,804
	2002		706,259		542,373		530,201
Actual Contribution	2000 2001 2002	\$	825,173 796,191 706,259	\$	427,503 388,310 540,072	\$	173,821 257,224 527,906
Percentage of APC Contributed	2000 2001 2002		100.00% 100.00 100.00		229.2% 89.2 99.6		381.8% 63.7 99.6
NPO (Asset)	2000 2001 2002	\$	- - -	\$	(260,510) (213,528) (211,227)	\$	(318,219) (171,639) (169,344)

<sup>\*</sup> Information presented is for the fiscal years ending December 31, 2001, 2002 and 2003 from actuarial reports as of December 31, 2000, 2001 and 2002.

The net pension obligation (asset) has been calculated as follows:

	]	Police Pension		refighters' Pension	
Annual required contributions Interest on net pension obligation Adjustment to annual required contribution	\$	549,860 (17,082) 9,595	\$	536,220 (13,731) 7,712	
Annual pension cost Contributions made		542,373 540,072		530,201 527,906	
(Increase) decrease in net pension obligation (asset) Net pension obligation (asset) beginning of year		2,301 (213,528)		2,295 (171,639)	
NET PENSION OBLIGATION (ASSET), END OF YEAR	\$	(211,227)	\$	(169,344)	

#### 14. SALE OF LAND

As part of the development of the property formerly occupied by the Glenview Naval Air Station, \$8,919,398 was recorded as revenue in the Glen Land Sales Fund for the sale of land.

#### 15. PRIOR PERIOD ADJUSTMENT

Prior period adjustments were recorded to implement GASB Statement Nos. 34, 37, 38 and Interpretation No. 6. Further, fund balance in the general fund increased by \$104,545 for revenue recognition of local use tax to be in compliance with GASB Statement No. 33.

#### 16. SUBSEQUENT EVENT

On July 6, 2004 the Village approved the issuance of \$25,000,000 of General Obligation Bonds Series 2004A and \$22,315,000 General Obligation Bonds Series B. The Series A proceeds will be used for infrastructure improvements in the Village's redevelopment district, known as The Glen. The Series B proceeds will be used to construct a new Police Headquarters building.

#### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2003

#### 1. BUDGETS

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted (at the fund level) for the General, Special Revenue, Debt Service (except the Corporate Purpose Bond Fund Series of 2003) and Capital Projects Funds (except the 2003 Projects Fund) on the modified accrual basis and for the Enterprise, Internal Service and Pension Trust Funds on the accrual basis. The annual appropriated budget is legally enacted and provides for a legal level of control at the fund level. All annual appropriations lapse at fiscal year end.

During the current year, budgets were not adopted for the following funds:

Debt Service Funds: Corporate Purpose Bond Fund Series of 2003

Capital Projects Funds: 2003 Projects Fund

The source of revenue and nature of expenditures for these funds are not subject to prediction, and therefore, budgets were not adopted.

All departments of the Village submit requests for appropriation to the Village Manager so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The Village Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing body.

Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, a supplementary appropriation was necessary.

# 2. EXCESS OF ACTUAL EXPENDITURES/EXPENSES OVER BUDGET IN INDIVIDUAL FUNDS

The following funds had an excess of actual expenditures/expenses (exclusive of depreciation and amortization) over budget for the fiscal year:

Fund	Excess
Foreign Fire Insurance	\$ 15,091
IMRF	823
Motor Fuel Tax	165,385
Police Special Account	7,906
Capital Projects	4,059,504
Wholesale Water	56,826
Insurance	356,176
Firefighters' Pension	123,209

#### MAJOR GOVERNMENTAL FUNDS

Village Permanent Fund - to accumulate 20% of the land sales proceeds of the Glenview Naval Air Base for village-wide improvements as well as short-term liquidity to the Village's TIF projects encompassing The Glen.

GNAS Bond Fund Series 1995 - to account for various development and other projects related to the Glenview Naval Air Base and financed with the General Obligation Bond Anticipation Bond Series of 1995.

Glen Land Sales Fund - to account for grant funds, land sales, and property tax revenues (via the Tax Increment Finance District) related to the Glenview Naval Air Base.

2001 Project Fund - to account for the funds derived from the 2001 General Obligation Bond issue.

#### NONMAJOR GOVERNMENTAL FUNDS

Foreign Fire Insurance Fund - to account for a tax on insurance premiums assessed on insurance companies located outside of the State of Illinois that provide coverage to homes and businesses within the Village.

Illinois Municipal Retirement Fund - to account for the revenues and expenditures associated with providing disability and pension benefits for Glenview employees. This fund also provides the employer with a portion of F.I.C.A. contributions.

Motor Fuel Tax Fund - to account for the activities involved with street maintenance and construction. Financing is provided by the Village's share of state gasoline taxes. State law requires these gasoline taxes to be used to maintain streets.

Refuse and Recycling Fund - to account for the financial activity of the community wide recycling program. The program is designed to license and monitor prime scavenger services operating in the residential areas of the Village. Their activities will mainly be involved with the collection and disposition of recyclable items.

911 Communications Fund - to account for the activity of the 911 emergency service system. Financial activity began in 1990 and the system became operational in 1992.

GNAS Redevelopment Fund - to account for the resources and expenditures incurred in the development of the Glenview Naval Air Base land.

GNAS Caretaker Fund - to account for the resources and expenditures related to the Village's custodial arrangement with the U.S. Navy regarding caretaking of the Glenview Naval Air Base.

Escrow Deposit Fund (formerly expendable trust funds) - to account for the funds placed on deposit with the Village by building contractors working within the Village's limits. Interest earned on escrow deposits is annually transferred to the Corporate Fund.

Deposit Fund (formerly expendable trust funds) - to account for money on deposit with the Village being held on a temporary basis, such as security deposits for use of the Village's equipment.

Police Department Special Account Fund (formerly expendable trust funds) - to account for funds received from the Illinois State Police office to be used in various types of investigations.

Corporate Purpose Bond Series of 1996 Fund - This issue in the amount of \$8,435,000 was sold to finance General Obligation Bond Anticipation Bonds that matured in 1996.

Corporate Purpose Bond Series of 1998 Fund - These issues in the amounts of \$10,000,000 of Series A and \$24,400,000 of Series B were sold to finance the development of the Glenview Naval Air Base.

Corporate Purpose Bond Series of 2000 Fund - This issue in the amount of \$4,970,000 was sold to finance various capital improvements throughout the Village.

Corporate Purpose Bond Series of 2001 Fund - This issue in the amount of \$41,800,000 was sold to finance the development of the former Glenview Naval Air Station.

General Obligation Refunding Bond Series of 2002 Fund - This issue in the amount of \$6,885,000 was sold to refund the Corporate Purpose Bond Series of 1993 and 1994.

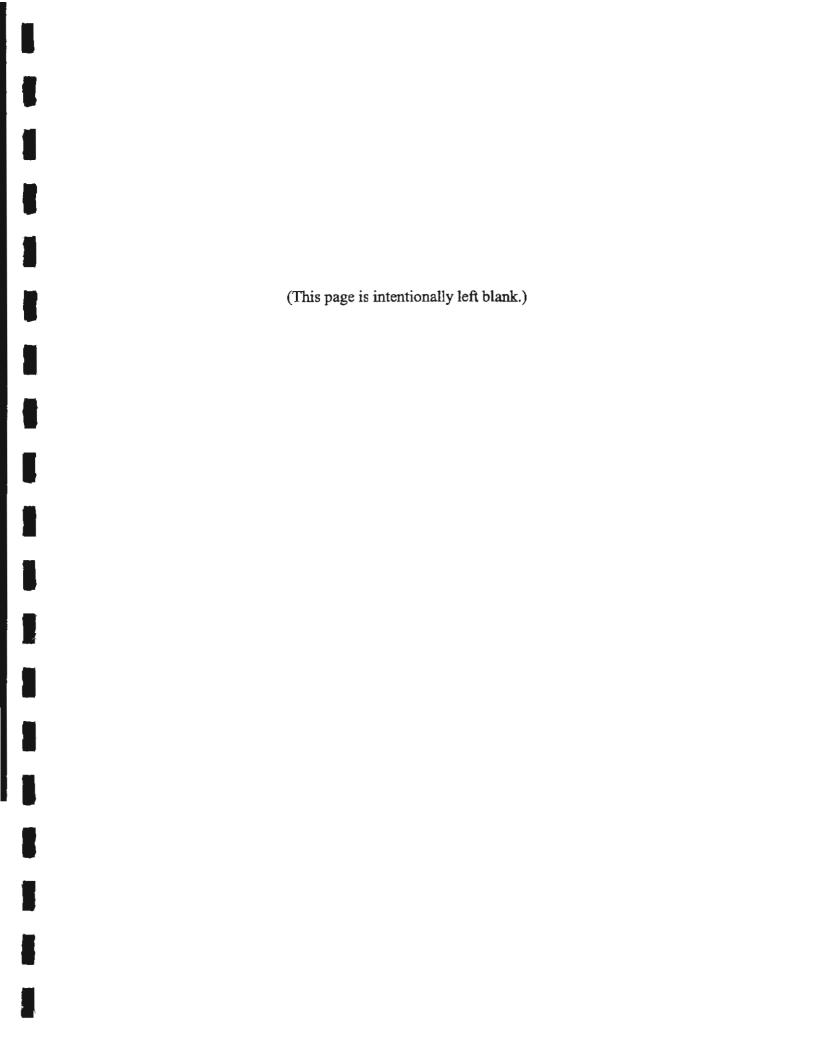

General Obligation Refunding Bond Series of 2003 Fund - This issue in the amount of \$9,990,000 was sold to refund the Corporate Purpose Bond Series of 1992 and 1996.

Capital Projects Fund - to account for revenues and expenditures involved with all other capital improvements throughout the Village.

Bond Fund Series of 1993 Fund - to account for the proceeds received from the Corporate Purpose Bond Series of 1993.

2000 Project Fund - to account for the funds derived from the 2000 General Obligation Bond issue.

2003 Project Fund - to account for the funds derived from the 2003 General Obligation Bond issue.

#### MAJOR ENTERPRISE FUNDS

Waterworks Fund - to account for the provision of water service to the residents of Glenview. All activity necessary to provide such services is accounted for in this fund including, but not limited to, administration (Director of Public Works), operation, maintenance, financing and related debt service and billing and collection.

North Maine Water and Sewer Fund - to account for all financial activity related to the Village providing water and sewer service to an unincorporated area southwest of the Village. This area was formerly served by the North Suburban Public Utilities Company.

### INTERNAL SERVICE FUNDS

Municipal Equipment Repair Fund - to account for the costs of repairing and maintaining all vehicles of the Village. These costs include labor, material, fuel and fixed overhead of the Village's repair facility.

Insurance Fund - to account for the financial activity of the Village's entire insurance program. In addition to conventional primary insurance, the Village is a member of the High-Level Excess Liability Pool (HELP), which provides excess liability coverage. Also, the Village provides health and life insurance by participating in the Intergovernmental Personnel Benefit Cooperative (IPBC).

Capital Equipment Replacement Fund (formerly a capital projects fund) - to account for the funds annually set aside for the eventual replacement of certain capital equipment.

### SCHEDULE OF LEGAL DEBT MARGIN

December 31, 2003

Article VII, Section 6(k) of the 1970 Illinois Constitution governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property . . . (2) if its population is more than 25,000 and less than 500,000 an aggregate of one per cent: . . . indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum . . . shall not be included in the foregoing percentage amounts."

To date, the General Assembly has set no limits for home rule municipalities.

Schools	\$ 34,217,204	1.97%	0.66%	\$ 817.67
Other than Schools	61,902,912	3.5 <b>7</b> %	1.19%	1,479.27
Total Overlapping Bonded Debt ,	\$ 96,120,116	5.54%	1.85%	\$ 2,296.94
Total Direct and Overlapping Bonded Debt	\$ 190,470,116	10.98%	3.66%	\$ 4,551.58
Total Direct and Overlapping Excl. Self-Supporting	\$ 104,077,816	6.00%	2.00%	\$ 2,487.10

Notes: 1. The Village is a home-rule unit under the 1970 lillnois Constitution and as such has no debt limit nor is it required to seek referendum approval for the issuance of general obligation debt. See "Retirement Schedule of Outstanding Village General Obligation Debt" below for a listing of the Village's non-general obligation debt and currently outstanding general obligation debt. Of the Village's general obligation debt 91.6% or \$86,392,300 is considered self-supporting.

2. See "Detailed Overlapping Bonded Indebtedness Payable From Property Taxes at December 31, 2003".

	\$7,957,700	\$1,937,300	\$4,920,000	\$1,795,000	\$31,555,000	\$41,300,000	\$4,885,000	\$94,350,000			

- Notes: 1. Excludes \$2,343,822 note payable in annual principal and interest payments of \$215,377 through 2019 to the sellers of the utility company that was acquired in September, 1997. The remaining principal amount of special service area bonds, the proceeds of which have been used for various neighborhood local improvements and which are secured by property taxes to be levied in the applicable special service areas, is shown as overlapping debt in the table "Detailed Overlapping Bonded Indebtedness Payable From Property Taxes".
  - 2. As a home rule unit under the 1970 Illinois Constitution, the Village has no debt limit and it can issue general obligation bonds without referendum. The Village has chosen to fund various water/sewer improvements with general obligation bonds and abate taxes from user charges. The Village's water system serves a population of approximately 125,000 of which approximately 83,000 are outside the Village limits (63,000 in unincorporated areas and 20,000 in the Citizens Utilities service area).
  - The Series 1998, Series 2001 and a portion of the Series 2003A Bonds are expected to be paid from incremental property taxes at the Glenview Naval Air Station Economic Development Project Area plus 80% of the land sale proceeds derived from the Village's sale of land at the Project Area.
  - 4. Includes remaining maturities of the Village's Series 2000 Bonds, and a portion of the Series 2002 Bonds.
  - Includes the remaining Series 1997 and a portion of the Series 2002.
  - 6. The Series 2003B Bonds (which refunded the Series 1992) are payable primarily from revenues of the service area of a private water company (Citizens Utilities) outside the Village limits.

- Notes: 1. Ratios and per capita information as set out In applicable Official Statements. The Village's Bond Anticipation Bonds which sold on January 25, 1995 are not included in these ratios (see Note 4).

  - Excluding the Village's self-supporting general obligation bonded debt.
     Final issue amount was \$8,040,000. This issue advance refunded the callable maturities of the Series 1989 and 1990
  - 4. General Obligation Bond Anticipation Bonds, Series 1995 ("BABS") the proceeds of which were used to fund interest up to the respective maturity dates of the BABS and to create a capital improvement fund for redevelopment costs of the Glenview Naval Air Station which officially closed on September 9, 1995. The principal amount of the Bond Anticipation Bonds was not included in the debt ratios and per capita data - when those maturities were refinanced with Series 1996 and the Series 1998 Bonds, they appeared in the debt ratios and per capita debt.
  - Proceeds used to refund the December 1, 1996 maturity of the BABS.
  - A portion of the proceeds of the Series 1998 Bonds was used to refund the December 1, 1998 maturity of the BABS.
  - 7. Proceeds used to redeem the Series 1993 and 1994.

- Notes: 1. Property in Cook County is separated into eight classifications for assessment purposes (ranging in 1985 from 16% for residential to 40% for commercial property). After the assessor establishes the fair market value of a parcel of land, that value is multiplied by one of the classification percentages to arrive at the assessed valuation for that parcel. The Illinois Department of Revenue furnishes each county with an adjustment factor (the equalization factor) to equalize the level of assessment between counties. After the equalization factor is applied, the valuation of the property for taxing purposes has been established—tax rates are applied to the equalized valuation.
  - 2. Includes four categories of exemptions in 2002: the Senior Citizens' Homestead Exemption (\$49,840,640); the Senior Citizens Tax Freeze Homestead Exemption (\$14,713,645) and the Long-Term Homeowner Exemption (\$1,392,396). The Senior Citizens' Homestead Exemption, effective for tax years 1991 and following, is a reduction of \$2,500 (\$1,500 in levy years 1972-1983 and \$2,000 in levy years 1984-1990) in the equalized assessed valuation of real property owned and occupied by a person 65 years of age or older. The General Homestead Exemption is available to owner-occupied residential property; the amount of the exemption is the increase in the current year's equalized assessed valuation above the 1977 tax year equalized assessed valuation, with a maximum of \$1,500 in 1978, \$3,000 between 1979 and 1982, \$3,500 between 1983-1990 and \$4,500 thereafter. The Senior Citizen Tax Freeze Homestead Exemption, first effective in levy year 1994, provides that persons 65 or older with a household income of less than \$40,000 (up from \$35,000 in levy year 1998 and prior) may receive an exemption in the amount of the difference between the current equalized assessed value of their principal residence and the lowest previous assessment in a qualifying year, even if the senior was not eligible for some intervening year. The Long-Term Homeowner Exemption is a Cook County program that provides property tax relief to long-term homeowners who meet certain income requirements and who have been adversely affected by rapid increases in property values.
  - Under the current triennial reassessment system in Cook County, one third of the County is reassessed each year. The Village was reassessed in 1998 and 2001 (for taxes to be collected in 2002).
  - By valuation,83.0% of the Village is in Northfield Township, 6.1% is in Niles Township,6.1% is in Maine Township, and 4.8% is in New Trier Township. Includes \$160,583 of Railroad Property now classified as Real Property.
  - The 1.3% decrease in 2000 were primarily due to a decrease of 1.2%, in the State Imposed equalization factor for Cook County.
  - 6. The Village's tax rate is calculated based on the Village's Net Equalized Assessed Valuation (shown in this table as "Net For General Taxing Purposes") and is extended against its entire Equalized Assessed Valuation (shown in this table as "Total for All Taxing Purposes") excluding only the statutory exemptions. Of the taxes collected, that portion applicable to incremental valuation (valuation of tax increment districts) is remitted to the Village by the County Collector for deposit in the applicable tax allocation fund. The Equalized Assessed Valuation for which the Village receives its portion of the total tax rate for all non-TIF purposes is shown in the table as "Net for General Taxing Purposes."
  - 7. When the Glenview Naval Air Station Tax Increment District was created, It included the Air Station and an older industrial area adjacent thereto. As of January 1, 1999, the Incremental valuation was added from changes in that industrial area. Land Valuations in that industrial area have increased for a variety of reasons including the fact the property being adjacent to a major new roadway entrance into the redeveloped base and a nearby new Metra train station.

Total(3)	\$8.057	\$7.835	\$8.176	\$7.146	\$6.833
Village as a Percent of Total	8.2%	8.3%	8.2%	7.6%	7.5%

Notes: 1. As a home rule unit under the 1970 Illinois Constitution, the Village has no statutory tax rate limitations.

- Beginning in levy year 1985, the tax rate for Library purposes is considered under State law to be a separate levy from the Village.
- Tax rate applicable to the largest tax code that represented 45.2% of the Village's 2002 tax base and is located in Northfield Township.

# TAX EXTENSIONS AND COLLECTIONS (Village Purposes Only)

Levy	Collection	Total Taxes	Total Taxes Collected as of December 31, 2003(1)					
Year	Year	Extended	Amount (2)	Percent				
1998	1999	\$7,658,448	\$7,702,489	100.57%				
1999	2000	8,110,825	8,080,664	99.63%				
2000	2001	8,237,573	8,296,330	100.71%				
2001	2002	8,238,452	8,441,291	102.46%				
2002	2003	8,230,473	8,346,033	101.40%				

- Notes: 1. Source: Cook County Treasurer's Office. Taxes collected, including late payments, are shown as collections in the year when due **regardless of when the collection occurs**. The "Amount Collected" is not the same as distributions to the Village as collections include taxes paid under protest. When the taxes are paid under protest are remitted, they are not included as taxes collected as they have already been considered "collected".
  - 2. Cook County property taxes are payable in two installments: the first on March 1, and the second on the latter of August 1 or 30 days after the mailing of the tax bills. The first installment is an estimated bill and is one-half of the prior year's bill. The second installment is based on the current levy, assessment and equalization and reflects any changes from the prior year in those factors. The second installment date for levy years 1998-2002 were November 1, 1999, October 2, 2000, November 1, 2001, November 1, 2002, and October 1, 2003, respectively.

# 1997 AND 2002 TAX BASE DISTRIBUTION BY PROPERTY CLASSIFICATION

	Village of Glenview										
	Taxable	Valuation(2)	Percen	t of Total							
Property Classification:	1997	2002	1997	2002							
Residential	\$ 736,518,370	\$1,251,887,575	70.3%	72.2%							
Commercial(1)	214,905,081	329,600,589	20.5%	19.0%							
Industrial	96,143,443	150,208,049	9.2%	8.8%							
Railroad	137,766	160,583	NIL	NIL							
Farm	73,166	80,255	NIL	NIL_							
Total	\$1,047,777,826	\$1,733,937,051	100.0%	100.0%							
Percent Increase 1997-2002		+65.5%									

- Notes: 1. The commercial classification includes apartment buildings with over six units and any apartment/retail mixed use buildings.
  - 2. Includes incremental valuation in the Village's tax Increment financing district.

Notes: 1. These condensed financial statements for the General Fund for the years ending December 31, 1999-2003 have been prepared from the full Comprehensive Annual Financial Reports of the Village of Glenview and do not purport to be complete financial statements. The full financial statements, together with the report of the Village's independent accountants, are available upon request. See Note 1 to "Combined Statement-All Funds".

The Village Manager submits a proposed operating budget to the Board of Trustees which budget includes proposed expenditures and the means of financing them. Subsequent to budget hearings, the budget is legally enacted through passage of an ordinance. The Village Manager

- is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that after the total expenditures of any fund must be approved by the Board of Trustees. Budgets are adopted on a basis consistent with generally accepted accounting principles.
- 3. As a home-rule unit, the Village can increase revenues by increasing its property tax levy, adopting a Prepared Food and Beverage Tax and increasing its home rule sales tax. The Village could also re-impose a motor vehicle license fee, which, if set at the prior level, could generate over \$450,000 in annual revenues (fiscal year 1997 was the last complete year the fee was in effect). The Village adopted a ½ of 1% sales tax effective July 1, 2004, which is expected to yield \$1.7 million on annualized basis. In calendar 2004 the proceeds will be allocated \$100,000 to the General Fund and \$850,000 to the Capital Projects Fund.
- 4. Effective May 6, 1985, the Village adopted a 5% hotel room tax. The Village currently has five operating hotels with 856 rooms. The Village adopted a 4% Amusement Tax effective January 1, 1998.
- Developers are required to deposit with the Village an amount equal to the cost of all improvements being built and dedicated to the Village which deposits are returned upon satisfactory completion of the improvements. Interest earnings on the amounts in the Escrow Deposit Fund are transferred to the General Fund.
- 6. The Capital Equipment Replacement Fund (CERF) was established by ordinance in 1979 with the stated purpose of evening out the annual expenditures for major capital expenditures. All of the Village's on-road and off-road equipment, fire, public works, etc., is included. Each Department is charged with the equivalent of a depreciation charge which is remitted in cash to the Capital Equipment Replacement Fund (carried in the Capital Projects Fund). As of December 31, 2003, audited cash and Investments in the Capital Equipment Replacement Fund totaled \$10,047,720.
- 7. On September 1, 1992 the Glenbrook Fire Protection District was merged into the Glenview Fire Department. The Fire Protection District continues to levy property taxes on that part of its tax base outside the Village limits and remits those tax receipts to the Village for services in the unincorporated area that now represents its tax base.

Notes: 1. These condensed financial statements for the years ending December 31, 1999-2003 have been prepared from the full Comprehensive Annual Financial Reports of the Village of Gienview and do not purport to be complete audits. The full financial statements, together with the report of the Village's independent accountants, are available upon request. The accounting policies of the Village conform to generally accepted accounting principles as applicable to governmental units. The accounts of the Village are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The various funds are grouped into the three broad categories of Governmental Funds, Fiduciary Funds and Proprietary Funds. Within the Governmental Funds are the General Fund (the general operation fund) which is used to account for all financial resources except those required to be accounted for in another fund; Special Revenue Funds which are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes; Debf Service Funds; and Capital Project Funds. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus which has only current assets and current liabilities on the balance sheet and operating statements present increases and decreases in net current assets. All prophetary funds and pension trust funds are accounted for on a flow of economic resources measurement focus with all assets and liabilities associated with the operation of these funds included on the balance sheets and fund equity segregated into contributed capital and retained earningsoperating statements present increases and decreases in net total assets. The modified accrual basis of accounting is followed for all Governmental Fund Types and Expendable Trust Funds (In the Fiduciary Funds category). All remaining Fiduciary Funds (Pension Trust Funds) and Proprietary Funds are accounted for using the accrual basis of accounting. The "Report of Independent Auditors" in the Village's general purpose financial statements for its fiscal year ended December 31, 2003 included the following language (comparable "clean" opinions were included in the VIIIage's 1999-2002 audits shown in this table):

"In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Village of Glenview, Illinois, as of December 31, 2003, and the results of its operations and the cash flows of its proprietary fund types for the year then ended and conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Village of Glenview, Illinois, as of December 31, 2003, and the results of operations of such funds and the cash flows of Individual proprietary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America."

- The Glenview Naval Air Station Redevelopment Fund was created to account for the resources and expenditures incurred in the development of the Glenview Naval Air Base land which was vacated by the Navy on September 9, 1995.
- 3. The amounts shown as fund balances for the Proprietary Funds are retained earnings (excludes contributed capital) and the amounts shown as "excess revenues" represent the change in retained earnings. "Total revenues" represent operating revenues.
- 4. Prior to fiscal year 1993, the Village maintained two Waterworks Funds to provide accounting for the eastern portion of the Village (Waterworks East) and the western portion and the applicable unincorporated area adjacent to the western border of the Village (Waterworks West) that is served by the water system (retained earnings at December 31, 1992 were \$3,909,087 for Waterworks East and \$5,537,828 for Waterworks West). The two accounting funds were set up in 1977 when the two private water companies serving the applicable western portion and unincorporated areas were, at the request of the residents, acquired by the Village for the purpose of up-grading the water quality in that area by replacing well water supply with Lake Michigan water supply that had been available to east Glenview since 1937. It was determined that the cost of amortizing the debt applicable to the acquisition of the two private water companies and constructing the necessary transmission main, storage and west system up-grading would be paid for by the customers of the west system. The use of differing rates continued until 1992 when a unified rate structure was put in place and the use of a minimum charge for water usage was eliminated. The two funds were combined in fiscal year 1993. A separate Sewerage Fund was created in fiscal year 1986 to account for the funds necessary to provide sanitary sewer service to both the incorporated and unincorporated areas served by the Village. Prior to 1986, these funds were accounted for in the two Waterworks Funds. The Wholesale Water Fund accounts for the sale of water to Citizens Utility Company for its service area outside the Village of Glenview. The North Maine Water and Sewer Fund accounts for all funancial activity related to the Village providing water and sewer service to an unlncorporated area southwest of the Village (formerly served by the North Suburban Public Utilities Company).
- 5. The Municipal Equipment Repair Fund is used to account for the costs of repairing and maintaining all Village vehicles.
- 6. Excludes the Village's Agency Funds.
- 7. The Escrow Deposit Fund is used to account for monies on deposit with the Village—the cost of public improvements to be dedicated to the Village must be escrowed with the Village and as payments are required for satisfactory work completed, monies are released to contractors. Interest earned on the escrowed deposits is retained by the Village and annually transferred to the General Fund.
- 8. Beginning in fiscal year 1993, the Library Fund was presented in the audit as a component unit of the Village because the Library possesses fhe characteristics of a legally separate government (separately elected 7-member board which annually determines its budget and tax levy).
- 9. The Village's Cash Control and Investment Policy was originally adopted on February 21, 1983 and was revised on March 15, 1985, January 16, 1990, March 19, 1996 and January 8, 2000.
- As of January 1, 2003, the Escrow Deposit, Deposit, and Police Department Special Account Funds were classified as Special Revenue Funds.
- 11. As of January 1, 2003, the Capital Equipment Replacement Fund was classified as an Internal Service Fund.

12. As of January 1, 2003 (for fiscal years ending December 31, 2003 and thereafter), the Village adopted the provisions of: Governmental Accounting Standards Board Statements No. 34, Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments; Statement No. 37, Basic Financial Statements and Management's Discussion and Analysis – For State and Local Governments: Omnibus; Statement No. 38, Certain Financial Statement Note Disclosures; and GASB Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements. This resulted in a change in the Village's method of accounting and a change in the format and content of the basic financial statements including notes to financial statements. As a result, direct comparisons with certain results from prior fiscal years are not possible.

# (At December 31, 2003)

	Governmental Activities		Business Type Activities
Capital Assets Not Being Depreciated:  Land	\$ 500,000	Capital Assets Not Being Depreciated:  Land	\$ 302,851

Governmental Activities Capital Assets, Net	\$ 2,837,271	Depreciated, Net	\$ 34,376,631
		Business-Type Activities Capital Assets, Net	\$ 34,679,482

Note: Capital assets, which include property, plant, equipment and Infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost in excess of \$50,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Capital assets are depreciated using the straight-line method over the estimated useful lives.
