

Wildberry Drive Water Main Improvements

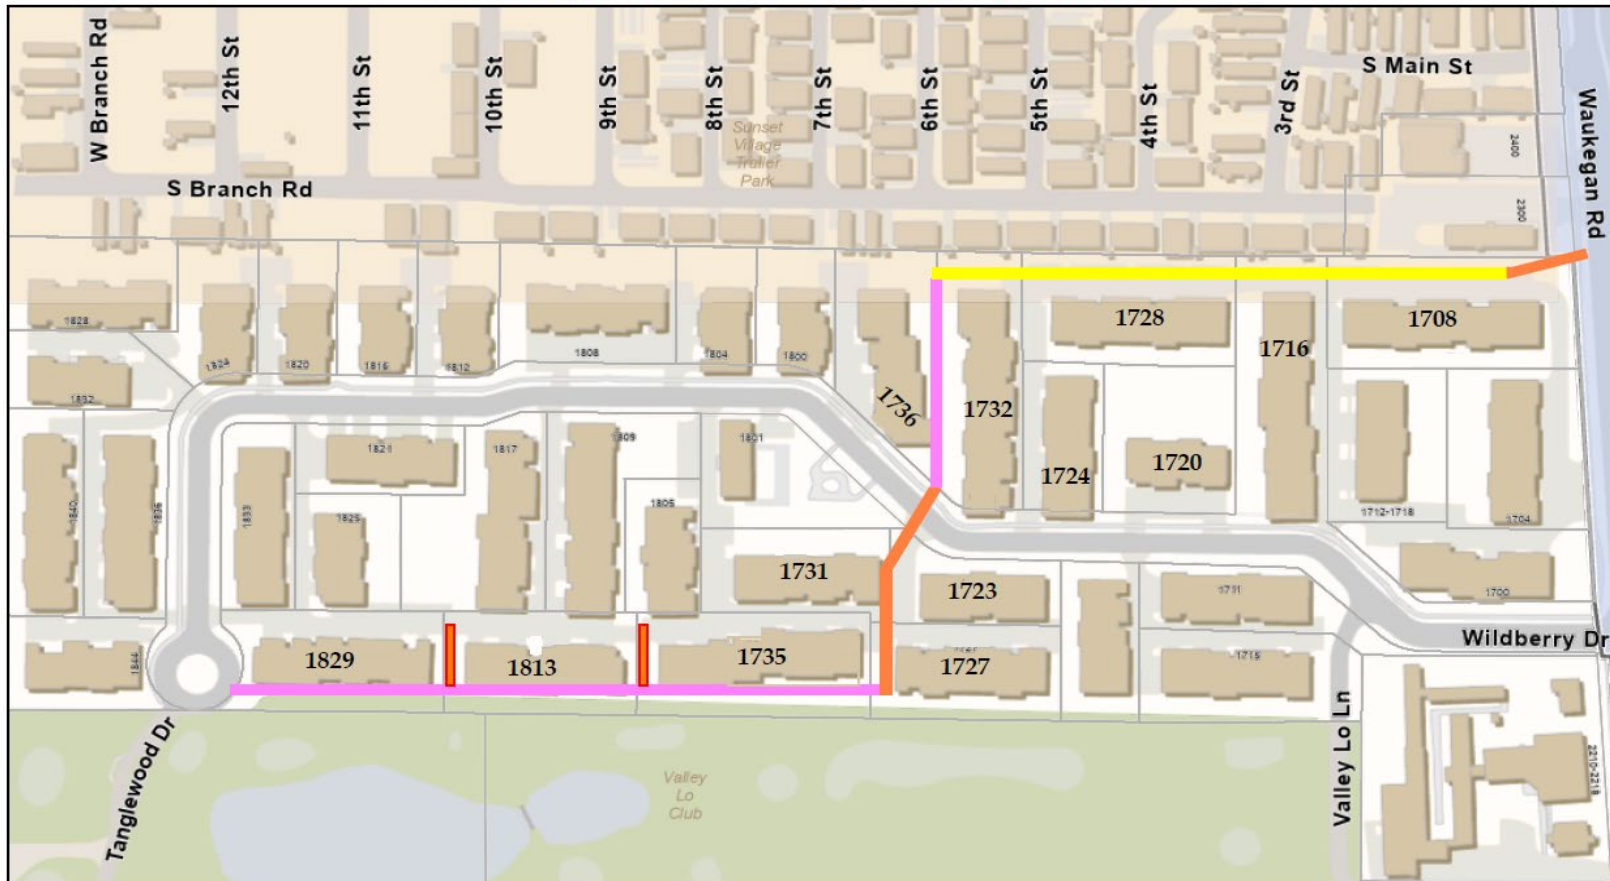

Welcome!

Resident Pre-Construction Meeting
February 27, 2024
6:45 PM

Project Location and Limits

Wildberry Rear Yard Water Main Improvements

All work to be completed within the public water main easements

Scope of Work and Benefit to Residents

- Replacement and lining of approximately 2200' of existing water mains located in side-yards or backyards, including replacing the water service to the shut-off-valve.
- Installation of a temporary water main at lining locations
- Pavement patching the street and parking areas with asphalt.
- Easement restoration with sod

What to Expect During Lining

Water service installation	2 weeks	Early to Mid May
Pavement patching	1 week	Late May
Landscape restoration	1 week	Early June
Anticipated completion date	Early June	
* Start location behind building 1829		

Resident's FAQ's

If my driveway is damaged, will it be fixed or replaced?

- Sections of private driveways located in the public right-of-way will be replaced if damaged during construction with the exception of edging materials and brick paver driveways. Reimbursement are available for reinstallation of brick pavers with the driveway apron located in the public right-of-way.

Will my driveway be closed during construction?

- Private drives will be accessible the majority of the time during construction. If your driveway needs to be closed, notice will be provided to allow adequate time to make arrangements.

Will the parkway be restored after construction is completed?

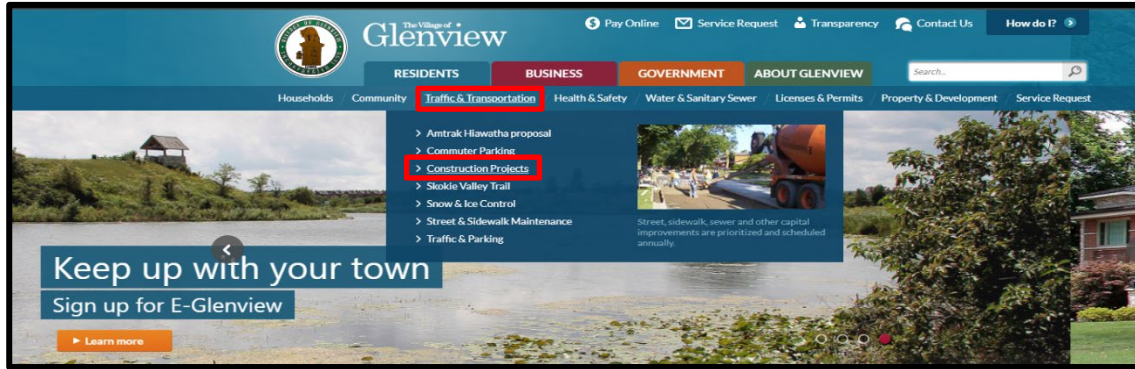

- Parkway areas disturbed by construction will be restored with sod during the last stage of construction. Please note that residents are responsible for the removal of private items located within the public parkway such as landscaping features, fencing, boulders, sprinklers, planters, etc. These items will not be replaced if damaged.

Will garbage pick up or bus pickup & drop off be impacted?

- The garbage service in your neighborhood will not be impacted during construction.
- Before bus routes are impacted, the school, bus company, and residents will be notified in advance of any alternate bus pick up and drop off.

Project Updates

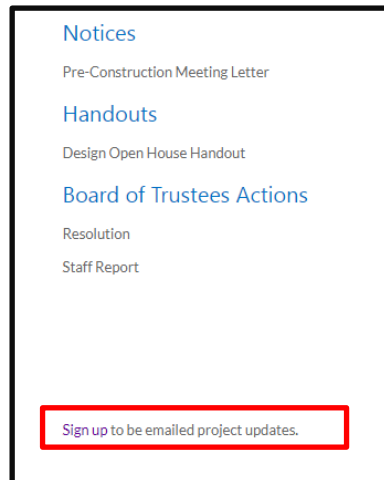

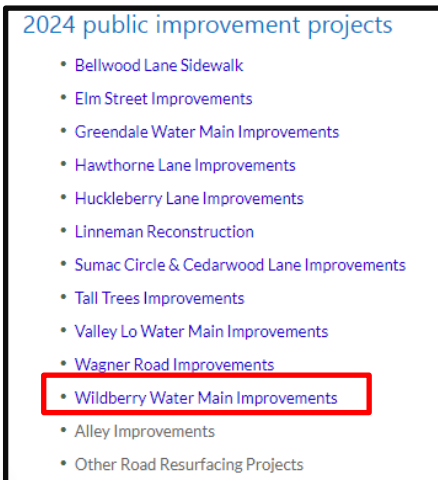

1. Navigate to <https://www.glenview.il.us/Pages/Default.aspx>
2. Select Traffic & Transportation > Construction Projects
