

2021 Environmental Sustainability Awards

Presented Feb. 1 2022

Village of Glenview

Overview

- **WHAT:** The Environmental Sustainability Awards are annually organized by the Environment & Natural Resources Commission to recognize organizations taking the lead with environmental stewardship, innovative best practices and community outreach. This is the 4th year of the Awards.
- **WHY:** To encourage collaboration related to environmental sustainability; increase awareness of sustainable practices; and support initiatives to lead, drive and influence sustainability
- **WHO:** Nominees can be any organization that serve the Glenview community, such as businesses, schools, houses of worship and volunteer groups

Awards Categories

- **Innovation** – How has a new practice improved sustainability and is a departure from the current practice?
- **Leadership** – How has the organization demonstrated that its practices are above and beyond the norm and has influenced others?
- **Education & Outreach** – What action has an organization taken to influence its employees, members, customers or others to improve sustainable practices?

The Winners

Innovation: MFNS Tech, Inc.

MFNS Tech, Inc., is a startup company that has developed a nanotech product that can be added to foams and sponges to clean up oil spills.

This product can help to treat oil contaminated waters with improved results. The founders are Glenview residents.

Glenview

GLENVIEW ENVIRONMENTAL
SUSTAINABILITY AWARD

Presented to

Intrinsic Landscaping, Inc.

2021 Innovation

Innovation: Princeton Village Homeowners Association

Upon learning about the need to increase habitat for the monarch butterfly, the residents of Princeton Village started a project to repurpose an area where trees were recently removed because of disease.

They planted the area with native plants that included varieties of milk weed that are key to the monarch's life cycle.

Homeowners Association**

2021 Innovation

Innovation: Ten Ninety Brewing Co.

Ten Ninety Brewing Company is a Glenview craft beer brewer that initiated a process to prevent their brewing byproducts from entering the waste stream.

The brewing byproducts are sent to a farm for incorporation into feed for livestock. The brewery completes the cycle by buying the meat from the farm for the restaurant.

Ten Ninety Brewing Co.

2021 Innovation

Education and Outreach: Collective Resource Compost

Collective Resource Compost is a food scrap hauling company based in Evanston that has been serving residential and business customers in Glenview since 2013.

They help people compost their food scraps and have diverted over 1,000 tons of food scraps in the last year and 8,000 tons since 2010. They educate people about the need to compost, how to work with their program, and do outreach in person and via zoom to teach people about composting.

Collective Resource Compost

2021 Education and Outreach

Education and Outreach: Solid Waste Agency of Northern Cook County

SWANCC's Recycling and Education coordinator educates people in the agency's 23 member communities on recycling information. During the pandemic, SWANCC has kept the communities educated via Zoom and in person. The organization also worked to increase the amount and types of materials that are recycled in the community.

Friends of Downtown Glenview

2021 Leadership

Leadership: The Beck, Hurvis, and Straus Families and The Glenview Park District

The Beck, Hurvis and Straus Families and Glenview Park District are being recognized for their work developing and supporting the Judy Beck Grant program.

This year the program awarded six grants that included supporting monarch butterfly habitat, funding compost awareness, and the food forest at The Grove. Judy Beck was a member of the Environment and Natural Resources Commission.

2021 Innovation

Leadership: Greenwise Organic Lawn Care & Landscaping

Greenwise is an organic lawncare company that practices natural lawncare. They use lower impact lawn equipment that runs on propane or electric power, which are quieter than gas powered equipment.

They also have outreach activities that educate people about natural lawn care and how native plants can improve the ecosystem one yard at a time.
