Glenview

Glenview Video Sharing Partnership Program

The Glenview Video Sharing partnership program is a voluntary program for residents and business owners who have private video security cameras that record public areas, such as streets, sidewalks and parking lots. Police and Fire staff whom respond to investigations, burglaries, assaults and other crimes will request recordings by contacting the registered video partner.

Residents and business owners who register a security camera would only be contacted by the Glenview Police Department in regards to an ongoing criminal investigation. Police personnel may ask camera owners to review or provide recorded footage related to a specific incident. This program requires the owner's cooperation and permissions to view, download, or copy any recorded incident.

This partnership is not intended for active or live feed surveillance, nor is it intended to check on what citizens are doing in their neighborhood. Any information or recorded video provided would be housed securely as evidence. The Glenview Police and/or Fire Department would never have remote or direct access to any private video system.

To participate, fill out this form and return it to:

Glenview Police Department
 Attn: Criminal Investigations Unit
 2500 E. Lake Avenue
 Glenview, IL 60026
